Research article *Open access*

On using dynamical seasonal forecasts to develop management-driven wildland fire outlooks in Alaska

Climate Services, August 2025

Cecilia Borries-Strigle, Uma S. Bhatt, ... Robert H. Ziel

View PDF

Research article *Open access*

Improving wildland fire spread prediction using deep U-Nets

Science of Remote Sensing, December 2023

Fadoua Khennou, Moulay A. Akhloufi

Research article

Simplified coupled atmosphere-fire model for simulation of 2D wildland fires

Computer Physics Communications, October 2025

Daniel San Martin, Claudio E. Torres

Research article

Combined estimation of fire perimeters and fuel adjustment factors in FARSITE for forecasting wildland fire propagation

Fire Safety Journal, September 2020

Tengjiao Zhou, Long Ding, ... Zheng Wang

Research article

Fuel modelling in terrestrial ecosystems: An overview in the context of the development of an object-orientated database for wild fire analysis

Ecological Modelling, 10 November 2009

V. Krivtsov, O. Vigy, ... G. B. Pezzatti

Research article

Climate predicts wildland fire extent across China

Science of The Total Environment, 20 October 2023

Ali Hassan Shabbir, Jie Ji, ... Jiquan Zhang

Research article

Computational modeling of extreme wildland fire events: A synthesis of scientific understanding with applications to forecasting, land management, and firefighter safety

Journal of Computational Science, October 2020

Janice L. Coen, W. Schroeder, ... L Tarnay

Research article

Computational modeling of extreme wildland fire events: A synthesis of scientific understanding with applications to forecasting, land management, and firefighter safety

Journal of Computational Science, September 2020

Janice L. Coen, W. Schroeder, ... L. Tarnay

Research article

Multi-scale 3D cellular automata modeling: Application to wildland fire spread

Chaos, Solitons & Fractals, November 2022

M. Byari, A. Bernoussi, ... M. Amharref

Research article

Simulations of flaming combustion and flaming-to-smoldering transition in wildland fire spread at flame scale

Combustion and Flame, April 2024

Mohamed Mohsen Ahmed, Arnaud Trouvé, ... Mark Finney

Research article *Open access*

Pregnancy exposure to PM2.5 from wildland fire smoke and preterm birth in California

Environment International, April 2024

Sally Picciotto, ShihMing Huang, ... Amy M. Padula

View PDF

Research article *Open archive*

Novel method for a posteriori uncertainty quantification in wildland fire spread simulation

Applied Mathematical Modelling, February 2021

Frédéric Allaire, Vivien Mallet, Jean-Baptiste Filippi

View PDF

Short communication

Assessing improvements in models used to operationally predict wildland fire rate of spread

Environmental Modelling & Software, July 2018

Miguel G. Cruz, Martin E. Alexander, ... Musa Kilinc

Research article

State-parameter estimation approach for data-driven wildland fire spread modeling: Application to the 2012 RxCADRE S5 field-scale experiment

Fire Safety Journal, April 2019

Cong Zhang, Annabelle Collin, ... Mélanie C. Rochoux

Research article

Emulation of wildland fire spread simulation using deep learning

Neural Networks, September 2021

Frédéric Allaire, Vivien Mallet, Jean-Baptiste Filippi

Research article

Wildland fire fuels database for Corsican - Mediterranean Forest stand types

Forest Ecology and Management, 1 August 2024

Y. Pérez-Ramirez, L. Ferrat, J. B. Filippi

Research article *Open access*

Kernel density change: A new bitemporal lidar metric for directly mapping wildland fire fuel consumption

Science of Remote Sensing, December 2025

Michael J. Campbell, Andrew T. Hudak, ... Philip E. Dennison

View PDF

Research article *Open access*

FastFuels: Advancing wildland fire modeling with high-resolution 3D fuel data and data assimilation

Environmental Modelling & Software, January 2025

Anthony Marcozzi, Lucas Wells, ... J. Kevin Hiers

View PDF

Research article *Open access*

Using climate-fire analog mapping to inform climate change adaptation strategies for wildland fire in protected areas of the conterminous US

Global Environmental Change Advances, July 2024

Adam Terando, Peng Gao, ... J. Kevin Hiers

View PDF

Research article

A novel method for estimation of wild fire intensity based on ash pH and soil microarthropod community

Pedobiologia, 2001

Nava Henig-Sever, Dina Poliakov, Meir Broza

Research article *Open access*

Minimize the bad days: Wildland fire response and suppression success

Rangelands, June 2022

Katherine Wollstein, Casey O'Connor, ... Rod Hoagland

View PDF

Research article *Open access*

Wildland fire mid-story: A generative modeling approach for representative fuels

Environmental Modelling & Software, January 2024

Grant Hutchings, James Gattiker, ... Rodman R. Linn

View PDF

Research article

An experimental investigation into the wildland fire burning characteristics of loblolly pine needles

Fire Safety Journal, December 2021

Daniel C. Stubbs, Luke H. Humphreys, ... David E. Scarborough

Research article

The wildland fire system and challenges for engineering

Fire Safety Journal, March 2021

Mark A. Finney

Research article

Physical model of wildland fire spread: Parametric uncertainty analysis

Combustion and Flame, July 2020

Xieshang Yuan, Naian Liu, ... Domingos X. Viegas

Review article *Open access*

Peatland-fire interactions: A review of wildland fire feedbacks and interactions in

Canadian boreal peatlands

Science of The Total Environment, 15 May 2021

K. Nelson, D. Thompson, ... L. Chasmer

View PDF

Research article *Open access*

Assimilation of Perimeter Data and Coupling with Fuel Moisture in a Wildland Fire–Atmosphere DDDAS

Procedia Computer Science, 2012

Jan Mandel, Jonathan D. Beezley, ... Minjeong Kim

View PDF

Research article

Physics-informed neural networks for parameter learning of wildfire spreading

Computer Methods in Applied Mechanics and Engineering, 1 February 2025

K. Vogiatzoglou, C. Papadimitriou, ... K. Ampountolas

Research article

An enhanced wildfire spread prediction using multimodal satellite imagery and deep learning models

Remote Sensing Applications: Society and Environment, August 2025

Rufai Yusuf Zakari, Owais Ahmed Malik, Ong Wee-Hong

Review article *Open access*

Progress and prospects for predicting wildfire spread through the wildland-urban interface

International Journal of Disaster Risk Reduction, 15 April 2025

Owen Price, Stefania Ondei, David M. J. S. Bowman

View PDF

Research article *Open archive*

Modeling wildland fire propagation with level set methods

Computers & Mathematics with Applications, April 2009

V. Mallet, D. E. Keyes, F. E. Fendell

View PDF

Research article

Wildland fire emissions, carbon, and climate: Science overview and knowledge needs

Forest Ecology and Management, 1 April 2014

William T. Sommers, Rachel A. Loehman, Colin C. Hardy

Research article

An interpretable wildfire spreading model for real-time predictions

Journal of Computational Science, December 2024

K. Vogiatzoglou, C. Papadimitriou, ... V. Bontozoglou

Research article

Driving wildfire spread prediction by multi-source real-time observations

Ecological Modelling, December 2025

Chuanying Lin, Yihong Shi, ... Jie Ji

Review article

Mathematical models and calculation systems for the study of wildland fire behaviour

Progress in Energy and Combustion Science, 2003

E Pastor, L Zárate, ... J Arnaldos

Review article

Uncertainty and risk in wildland fire management: A review

Journal of Environmental Management, August 2011

Matthew P. Thompson, Dave E. Calkin

Review article

Wildland fire risk research in Canada

Environmental Reviews, 26 November 2019

Lynn M. Johnston, Xianli Wang, ... Mike D. Flannigan

Research article

Simulation study of radionuclide atmospheric transport after wildland fires in the Chernobyl Exclusion Zone in April 2020

Atmospheric Pollution Research, March 2021

Mykola Talerko, Ivan Kovalets, ... Olexandr Romanenko

Research article

Progress towards and barriers to implementation of a risk framework for US federal wildland fire policy and decision making

Forest Policy and Economics, June 2011

David C. Calkin, Mark A. Finney, ... Krista M. Gebert

Review article

Fifty years of wildland fire science in Canada

Canadian Journal of Forest Research, 18 December 2020

Sean C. P. Coogan, Lori D. Daniels, ... B. Mike Wotton

Short communication

Are the applications of wildland fire behaviour models getting ahead of their evaluation again?

Environmental Modelling & Software, March 2013

Martin E. Alexander, Miguel G. Cruz

Research article

Changes in potential wildland fire suppression costs due to restoration treatments in Northern Arizona Ponderosa pine forests

Forest Policy and Economics, February 2018

Ryan A. Fitch, Yeon Su Kim, ... Joe E. Crouse

Book chapter

Chapter 11: Wildland Fire Danger Rating and Early Warning Systems

Wildfire Hazards, Risks and Disasters, 2015

William J. de Groot, B. Michael Wotton, Michael D. Flannigan

Research article

Influence of uncertainties in burned area estimates on modeled wildland fire PM2.5 and ozone pollution in the contiguous U.S.

Atmospheric Environment, October 2018

Shannon N. Koplitz, Christopher G. Nolte, ... James Beidler

Research article

Wildland fire emissions, carbon, and climate: Wildfire–climate interactions

Forest Ecology and Management, 1 April 2014

Yongqiang Liu, Scott Goodrick, Warren Heilman

Research article *Open access*

Improving wildfire simulation accuracy using satellite active fire data for interval reinitialization and rate of spread adjustment

Remote Sensing Applications: Society and Environment, August 2025

Shahab M. Beyki, António Manuel Gameiro Lopes, ... Luís Laím

View PDF

Research article

Wildland fire emissions, carbon, and climate: Wildland fire detection and burned area in the United States

Forest Ecology and Management, 1 April 2014

Wei Min Hao, Narasimhan K. Larkin

Research article Full text access

Operational Application of Mathematical Modeling for Enhanced Wildfire Risk Management in Liguria

IFAC-PapersOnLine, 2024

Francesco Baghino, Emanuele Gissi, ... Paolo Fiorucci

View PDF

Research article

Monte Carlo estimation of thermal radiation from wildland fires

International Journal of Thermal Sciences, January 2011

Y. Billaud, A. Kaiss, ... B. Porterie

Research article *Open access*

Cloud-based urgent computing for forest fire spread prediction

Environmental Modelling & Software, June 2024

Edigley Fraga, Ana Cortés, ... Carlos Carrillo

View PDF

Research article

A wildland fire model with data assimilation

Mathematics and Computers in Simulation, 1 December 2008

Jan Mandel, Lynn S. Bennethum, ... Anthony Vodacek

Research article

Predicting the arrival of the unpredictable: An approach for foreseeing the transition to chaos of wildfire propagation

Communications in Nonlinear Science and Numerical Simulation, November 2024

Jorge Mampel Danta, Vera N. Egorova, Gianni Pagnini

Research article

The development and implementation of a human-caused wildland fire occurrence prediction system for the province of Ontario, Canada

Canadian Journal of Forest Research, 18 December 2020

Douglas G. Woolford, David L. Martell, ... Dennis Boychuk

Research article

Development of an integrated wildfire danger rating system for pre-fire planning and incident forecasting

International Journal of Disaster Risk Reduction, January 2025

Ioannis Zacharakis, Vassilios A. Tsihrintzis

Research article *Open access*

Metaheuristic algorithms for calibration of two-dimensional wildfire spread prediction model

Engineering Applications of Artificial Intelligence, October 2024

Jorge Pereira, Jérôme Mendes, ... João Ruivo Paulo

View PDF

Review article *Open access*

Deep learning for wildfire risk prediction: Integrating remote sensing and environmental data

ISPRS Journal of Photogrammetry and Remote Sensing, September 2025

Zhengsen Xu, Jonathan Li, ... Lincoln Linlin Xu

View PDF

Research article *Open access*

Ensemble-based forecasting of wildfire potentials using relative index in Gangwon Province, South Korea

Ecological Informatics, May 2025

Sang Yeob Kim, Changhyun Jun, Wooyoung Na

View PDF

Research article

Wildland fire emissions, carbon and climate: Characterizing wildland fuels

Forest Ecology and Management, 1 April 2014

David R. Weise, Clinton S. Wright

Research article

A physical model for wildland fires

Combustion and Flame, December 2009

J. H. Balbi, F. Morandini, ... F. Rinieri

Research article *Open access*

Wildfire Spread Prediction and Assimilation for FARSITE Using Ensemble Kalman Filtering

Procedia Computer Science, 2016

Thayjes Srivas, Tomàs Artés, ... Ilkay Altintas

View PDF

Research article

The impact of wildland fires on calcareous Mediterranean pedosystems (Sardinia, Italy) – An integrated multiple approach

Science of The Total Environment, 15 May 2018

Gian Franco Capra, Simona Tidu, ... Peter Filzmoser

Book chapter

Chapter 5: Wildland Fire Spread Models

Forest Fires, 2001

R. O. Weber

Research article

Thermal decomposition of vegetative fuels and the impact of measured variations on simulations of wildfire spread

Fire Safety Journal, May 2023

Isaac T. Leventon, Jiuling Yang, Morgan C. Bruns

Open access

Bridging spatiotemporal wildfire prediction and decision modeling using transformer networks and fuzzy inference systems

MethodsX, December 2025

Parul Dubey, Pushkar Dubey

View PDF

Research article *Open access*

Data resolution effects on a coupled data driven system for forest fire propagation prediction

Procedia Computer Science, 2017

À. Farguell, A. Cortés, ... J. Mercader

View PDF

Research article

Data-driven surrogate model with latent data assimilation: Application to wildfire forecasting

Journal of Computational Physics, 1 September 2022

Sibo Cheng, I. Colin Prentice, ... Rossella Arcucci

Review article *Open access*

Forest fire management, funding dynamics, and research in the burning frontier: A comprehensive review

Trees, Forests and People, June 2024

Himanshu Bargali, Aseesh Pandey, ... V. P. Uniyal

View PDF

Research article *Open access*

Challenges of wildland fire management in Botswana: Towards a community inclusive fire management approach

Weather and Climate Extremes, September 2013

Opha Pauline Dube

View PDF

Research article *Open access*

Situational-aware multi-graph convolutional recurrent network (SA-MGCRN) for travel demand forecasting during wildfires

Transportation Research Part A: Policy and Practice, December 2024

Xiaojian Zhang, Xilei Zhao, ... Ruggiero Lovreglio

View PDF

Research article

Modeling topographic influences on fuel moisture and fire danger in complex terrain to improve wildland fire management decision support

Forest Ecology and Management, 15 December 2011

Zachary A. Holden, W. Matt Jolly

Research article *Open access*

PDE solution to UAV/UGV trajectory planning problem by spatio-temporal estimation during wildfires

Chinese Journal of Aeronautics, May 2021

Mohammadreza RADMANESH, Balaji SHARMA, ... Donald FRENCH

View PDF

Research article *Open access*

Perspective article: Mitigating social and economic impact of wildfires

Applications in Energy and Combustion Science, December 2024

Louis A. (Lou) Gritzo

View PDF

Research article

Global wildland fire season severity in the 21st century

Forest Ecology and Management, 15 April 2013

Mike Flannigan, Alan S. Cantin, ... Lynn M. Gowman

Research article

Surface-layer turbulence associated with a fast spreading grass fire

Agricultural and Forest Meteorology, 1 May 2024

Shiyuan Zhong, Melissa Gonzalez-Fuentes, ... Michael T. Kiefer

Review article

Wildland fire ash: Production, composition and eco-hydro-geomorphic effects

Earth-Science Reviews, March 2014

Merche B. Bodí, Deborah A. Martin, ... Jorge Mataix-Solera

Research article *Open access*

A comparative climate-resilient energy design: Wildfire Resilient Load Forecasting Model using multi-factor deep learning methods

Applied Energy, 15 August 2024

Weijia Yang, Sarah N. Sparrow, David C. H. Wallom

View PDF

Research article

Information systems in support of wildland fire management decision making in Canada

Computers and Electronics in Agriculture, December 2002

B. S Lee, M. E Alexander, ... P Englefield

Research article *Open access*

Using AutoML and generative AI to predict the type of wildfire propagation in Canadian conifer forests

Ecological Informatics, September 2024

Sadegh Khanmohammadi, Miguel G. Cruz, ... Mehrdad Arashpour

View PDF

Research article *Open access*

Modelling Wildfire Propagation Using the Stochastic Level-set Method

Communications in Nonlinear Science and Numerical Simulation, Available online 19 September 2025

Sahar Masoudian, Jason Sharples, ... James Hilton

View PDF

Research article *Open access*

Modernizing the US National Fire Danger Rating System (version 4): Simplified fuel models and improved live and dead fuel moisture calculations

Environmental Modelling & Software, October 2024

W. Matt Jolly, Patrick H. Freeborn, ... Stuart Brittain

View PDF

Research article

Burn probability simulation and subsequent wildland fire activity in Alberta, Canada – Implications for risk assessment and strategic planning

Forest Ecology and Management, 1 November 2019

Jennifer L. Beverly, Neal McLoughlin

Correspondence

Commentary on the article “Burn probability simulation and subsequent wildland fire activity in Alberta, Canada – Implications for risk assessment and strategic planning” by J.L. Beverly and N. McLoughlin

Forest Ecology and Management, 15 March 2020

Marc-André Parisien, Alan A. Ager, ... Ellen Whitman

Research article *Open access*

Capturing and interpreting wildfire spread dynamics: attention-based spatiotemporal models using ConvLSTM networks

Ecological Informatics, September 2024

Arif Masrur, Manzhu Yu, Alan Taylor

View PDF

Research article

Experimental and numerical study on data-driven prediction for wildfire spread incorporating adaptive observation error adjustment

incorporating adaptive observation error adjustment

Fire Safety Journal, September 2024

Zheng Wang, Xingdong Li, ... Jie Ji

Review article

Chapter 6 Airborne Remote Sensing of Wildland Fires

Developments in Environmental Science, 2008

Philip J. Riggan, Robert G. Tissell

Research article

Enhancing Air Quality Forecasts Across the Contiguous United States (CONUS) During Wildfires Using Analog-Based Post-Processing Methods

Atmospheric Environment, 1 January 2024

Maryam Golbazi, Stefano Alessandrini, ... Jeffery McQueen

Research article *Open access*

Modelling wildfire spread and spotfire merger using conformal mapping and AAA-least squares methods

Environmental Modelling & Software, February 2025

Samuel J. Harris, N. R. McDonald

View PDF

Research article *Open access*

Multifidelity prediction in wildfire spread simulation: Modeling, uncertainty quantification and sensitivity analysis

Environmental Modelling & Software, July 2021

Mario Miguel Valero, Lluís Jofre, Ricardo Torres

View PDF

Review article *Open access*

A review of thermal exposure and fire spread mechanisms in large outdoor fires and the built environment

Fire Safety Journal, October 2023

Alexander I. Filkov, Virginie Tihay-Felicelli, ... Wai Cheong Tam

View PDF

Research article

FRI: A firefighter risk index using spatiotemporal modelling of wildfire spread and individual travel

International Journal of Disaster Risk Reduction, 1 February 2025

Wenyu Jiang, Jiahao Zhou, ... Fei Wang

Review article *Open access*

Intelligent fire modeling in wildland-urban interface: A comprehensive review of current progress, challenges, and future perspectives

Journal of Safety Science and Resilience, Available online 6 September 2025

Ao Zheng, Rui Ba, ... Xinyi Han

View PDF

Research article

The Warn-on-Forecast System for Smoke (WoFS-Smoke) with vertical velocity adjustment

Atmospheric Environment, 15 November 2025

Fangjiao Ma, Thomas Jones

Research article

Uncertainty associated with model predictions of surface and crown fire rates of spread

Environmental Modelling & Software, September 2013

Miguel G. Cruz, Martin E. Alexander

Review article *Open access*

Navigating the evolving landscape of wildfire management: A systematic review of decision support tools

Trees, Forests and People, June 2024

Tristan O'Mara, Andrew Sánchez Meador, ... Elvy Barton

View PDF

Research article *Open access*

Conceptual design of a wildfire emergency response system empowered by swarms of unmanned aerial vehicles

International Journal of Disaster Risk Reduction, 15 June 2025

Mohammad Tavakol Sadrabadi, Joaquim Peiró, ... Guillermo Rein

View PDF

Research article

Wildfire spread prediction using geostationary satellite observation data and directional ROS adjustment factor

Journal of Environmental Management, December 2024

Seungmin Yoo, Won-Hee Kang, Junho Song

Research article

Analysis of the future potential impact of environmental and climate changes on wildfire spread in Ghana's ecological zones using a Random Forest (RF) machine learning approach

Remote Sensing Applications: Society and Environment, January 2024

Kueshi Sémanou Dahan, Raymond Abudu Kasei, ... Mohammed Y. Said

Research article Full text access

Machine Learning-Driven Dynamic Maps Supporting Wildfire Risk Management

IFAC-PapersOnLine, 2024

Nicolò Perello, Giorgio Meschi, ... Paolo Fiorucci

View PDF

Research article

Directional analysis of community wildfire evacuation capabilities

Safety Science, March 2024

Amy M. Kim, Jennifer L. Beverly, Abdullah Al Zahid

Research article *Open access*

Simulating the impacts of regional wildfire smoke on ozone using a coupled fire-atmosphere-chemistry model

Atmospheric Environment, 1 November 2025

Derek V. Mallia, Cambria White, ... Adam K. Kochanski
