Book review

Introduction to wildland fire: by S.J. Pyne, P.L. Andrews and R.D. Laven, John Wiley and Sons, Chichester, U.K., 1996, 769 pp., £70.00, ISBN 0-471-54913-4

Agricultural and Forest Meteorology, August 1997

Xu ui Lee

Research article

Time series analysis of wildfire propagation in Chile: A complex networks approach

Chaos, Solitons & Fractals, July 2025

Iván Gallo-Méndez, Jaime Clark, Denisse Pastén

Review article

Chapter 20 Interactive Effects of Climate and Wildland Fires on Forests and other Ecosystems—Section III Synthesis

Developments in Environmental Science, 2008

Nancy E. Grulke

Research article

Foliar moisture content of Pacific Northwest vegetation and its relation to wildland fire behavior

Forest Ecology and Management, 15 August 2002

James K. Agee, Clinton S. Wright, ... Mark H. Huff

Book chapter

Chapter 16: A decentralized web-app decision support system for logistics management in wildfire

Reliable Decision-Making for Sustainable Transportation, 2026

Mahsa Mohammadi, Marziye Seif, Babak Mohamadpour Tosarkani

Research article

Uncertainty simulation of large-scale discrete grassland fire spread based on Monte Carlo

Fire Safety Journal, February 2023

Xing-peng Liu, Zhi-jun Tong, ... Chuan-tao Song

Research article

Mediterranean cities under fire. A critical approach to the wildland–urban interface

Applied Geography, May 2015

Régis Darques

Research article

Smoke emissions from wildland fires

Environment International, 1991

Darold E. Ward, Colin C. Hardy

Review article *Open access*

Wildfire adaptation in the Russian Arctic: A systematic policy review

Climate Risk Management, 2023

I. V. Canosa, R. Biesbroek, ... D. Burnasheva

View PDF

Research article

The state of wildfire and bushfire science: Temporal trends, research divisions and knowledge gaps

Safety Science, September 2022

Milad Haghani, Erica Kuligowski, ... Crystal A. Kolden

Review article *Open access*

Wildfire Fuels Mapping through Artificial Intelligence-based Methods: A Review

Earth-Science Reviews, March 2025

Riyaaz Uddien Shaik, Mohamad Alipour, ... Ertugrul Taciroglu

View PDF

Research article

Improving wildfire resilience of road networks through generative models

Reliability Engineering & System Safety, December 2025

Debasish Jana, Sven Malama, ... Ertugrul Taciroglu

Research article

Network theory applied to preparedness problems in wildfire management

Safety Science, August 2022

Marc Demange, Alessia Di Fonso, ... Pierpaolo Vittorini

Review article

Review of wildfire modeling considering effects on land surfaces

Earth-Science Reviews, October 2023

Dani Or, Eden Furtak-Cole, ... Sean A. McKenna

Research article

Effects of wildland fire on the tropical alpine moorlands of Mount Kenya

CATENA, February 2017

Timothy A. Downing, Moses Imo, ... Abigael Nekesa Otinga

Research article *Open access*

Potential impact of the 2023 Lahaina wildfire on the marine environment: Modeling the transport of ash-laden benzo[a]pyrene and pentachlorophenol

Science of The Total Environment, 1 December 2024

C. A. Downs, Shadan Nasseri Doust, ... Michael J. Risk

View PDF

Research article *Open access*

Rapid spread and high prevalence of the pine wilt disease around wildfire areas

Trees, Forests and People, June 2025

Taehoon Lee, Jeeyoung Kim

View PDF

Research article *Open access*

A graph-based optimization framework for firebreak planning in wildfire-prone landscapes

Ecological Informatics, December 2025

Denys Yemshanov, Ning Liu, ... Frank H. Koch

View PDF

Research article *Open access*

Experimental and numerical investigation of burning characteristics of Australian pine trees for wildfire modelling

Fire Safety Journal, November 2025

Siddharth Gupta, Mohamed Sharaf, ... Khalid Moinuddin

View PDF

Research article *Open access*

Comparative analysis of wildfire simulation tools: Discrepancies in Rothermel model-based software under varying wind and slope conditions

International Journal of Disaster Risk Reduction, 15 April 2025

Shahab Mohammad Beyki, António Gameiro Lopes, ... Aldina Santiago

View PDF

Research article *Open access*

Model linkage to assess forest disturbance impacts on water quality: A wildfire case study using LANDIS(II)-VELMA

Environmental Modelling & Software, September 2024

Kar'retta Venable, John M. Johnston, ... Lourdes Prieto

View PDF

Research article

Dry forests and wildland fires of the inland Northwest USA: Contrasting the landscape ecology of the pre-settlement and modern eras

Forest Ecology and Management, 6 June 2005

Paul F. Hessburg, James K. Agee, Jerry F. Franklin

Review article

The Changing Nature of Wildfires: Impacts on the Health of the Public

Clinics in Chest Medicine, December 2020

John R. Balmes

Review article *Open access*

A fire-use decision model to improve the United States' wildfire management and support climate change adaptation

Cell Reports Sustainability, 28 June 2024

Aaron Russell, Nina Fontana, ... Adam Terando

View PDF

Research article

Wildfire spread prediction using geostationary satellite observation data and directional ROS adjustment factor

Journal of Environmental Management, December 2024

Seungmin Yoo, Won-Hee Kang, Junho Song

Review article *Open access*

Impacts of wildfire smoke aerosols on radiation, clouds, precipitation, climate, and air

quality

Atmospheric Environment: X, April 2025

Rahele Barjeste Vaezi, Michael R. Martin, Farnaz Hosseinpour

View PDF

Research article *Open access*

A comprehensive survey of research towards AI-enabled unmanned aerial systems in pre-, active-, and post-wildfire management

Information Fusion, August 2024

Sayed Pedram Haeri Boroujeni, Abolfazl Razi, ... Kyriakos G. Vamvoudakis

View PDF

Research article

Prescribed fire, managed burning, and previous wildfires reduce the severity of a southwestern US gigafire

Forest Ecology and Management, 15 March 2025

Gavin M. Jones, Alexander Spannuth, ... Matthew D. Hurteau

Research article

Uncertainty associated with model predictions of surface and crown fire rates of spread

Environmental Modelling & Software, September 2013

Miguel G. Cruz, Martin E. Alexander

Research article

Assessment of exposures to firefighters from wildfires in heavily contaminated areas of the Chornobyl Exclusion Zone

Journal of Environmental Radioactivity, April 2024

Valery Kashparov, Serhii Kirieiev, ... Deborah H. Oughton

Research article

MAPPING WILDFIRE JURISDICTIONAL COMPLEXITY REVEALS OPPORTUNITIES FOR REGIONAL CO-MANAGEMENT

Global Environmental Change, January 2024

Kate Jones, Jelena Vukomanovic, ... Shannon McGovern

Research article *Open access*

Living with wildfire: cultivating a stewardship framework

Global Environmental Change, October 2025

Maya Daurio

View PDF

Research article *Open access*

Analysis of the 2017 Knysna fires disaster with emphasis on fire spread, home losses and the influence of vegetation and weather conditions: A South African case study

International Journal of Disaster Risk Reduction, 1 April 2023

Natalia Flores Quiroz, Lesley Gibson, ... Richard Walls

View PDF

Research article *Open access*

Rapid prediction of wildfire spread using ensemble Kalman filter and polyline simplification

Environmental Modelling & Software, February 2023

Seungmin Yoo, Junho Song

View PDF

Research article

Applications of Randers geodesics for wildfire spread modelling

Applied Mathematical Modelling, June 2022

Hengameh R. Dehkordi

Research article *Open access*

Towards an Integrated Cyberinfrastructure for Scalable Data-driven Monitoring, Dynamic Prediction and Resilience of Wildfires

Procedia Computer Science, 2015

Ilkay Altintas, Jessica Block, ... Larry Smarr

View PDF

Research article *Open access*

Simulated fire observables as indicators for optimizing wireless sensor networks in wildfire risk monitoring

Ecological Indicators, June 2025

Juan Luis Gómez-González, Effie Marcoulaki, ... Mario Castro

View PDF

Research article

Global sensitivity analysis of fuel-type-dependent input variables of a simplified physical fire spread model

Mathematics and Computers in Simulation, June 2020

M. I. Asensio-Sevilla, M. T. Santos-Martín, ... L. Ferragut-Canals

Review article

A review of machine learning applications in wildfire science and management

Environmental Reviews, 28 July 2020

Piyush Jain, Sean C. P. Coogan, ... Mike D. Flannigan

Research article *Open access*

Landscaping defensible space: Plant flammability testing informs recommendations to reduce community fire hazard

Landscape and Urban Planning, December 2025

Kristina Fauss, Joe V. Celebrezze, ... Max A. Moritz

View PDF

Research article

Modelling the present and future of Phrynosoma orbiculare habitat and wildfire distribution and their environmental niche overlap in Mexico

Journal for Nature Conservation, December 2024

Tamara Rubio-Blanco, Hublester Domínguez-Vega, ... Armando Sunny

Research article

Characterising the holdover phase of lightning-ignited wildfires in Catalonia

Agricultural and Forest Meteorology, 15 September 2022

Nicolau Pineda, Patricia Altube, ... Joan Montanyà

Discussion *Open access*

The 2023 wildfires in British Columbia, Canada: impacts, drivers, and transformations to coexist with wildfire

Canadian Journal of Forest Research, 21 August 2025

Lori D. Daniels, Sarah Dickson-Hoyle, ... Robert W. Gray

Research article

Decreasing frequency of low and moderate fire weather days may be contributing to large wildfire occurrence in the northern Sierra Nevada

Agricultural and Forest Meteorology, 15 September 2025

Brandon M. Collins

Research article

Trajectories of community fire adaptation: Social diversity, social fragmentation and the temporal evolution of wildfire action

Journal of Environmental Management, April 2025

Travis B. Paveglio, Amanda Stasiewicz

Research article

A national approach for integrating wildfire simulation modeling into Wildland Urban Interface risk assessments within the United States

Landscape and Urban Planning, November 2013

Jessica R. Haas, David E. Calkin, Matthew P. Thompson

Research article *Open access*

Cooperative community wildfire response: Pathways to First Nations' leadership and partnership in British Columbia, Canada

International Journal of Disaster Risk Reduction, November 2024

Kelsey Copes-Gerbitz, Dave Pascal, ... Lori D. Daniels

View PDF

Research article *Open access*

PyTorchFire: A GPU-accelerated wildfire simulator with Differentiable Cellular Automata

Environmental Modelling & Software, April 2025

Zeyu Xia, Sibo Cheng

View PDF

Research article *Open access*

Assessing Pan-Canada wildfire susceptibility by integrating satellite data with novel hybrid deep learning and black widow optimizer algorithms

Science of The Total Environment, 15 May 2025

Khabat Khosravi, Ashkan Mosallanejad, ... Mumtaz Ali

View PDF

Research article

Data-driven modeling of wildfire spread with stochastic cellular automata and latent spatio-temporal dynamics

Spatial Statistics, March 2024

Nicholas Grieshop, Christopher K. Wikle

Research article *Open access*

Spaceborne LiDAR-derived height-variable forest wind reduction factors (WRF) for

Spaceborne LiDAR derived height-variable forest wind reduction factors (WRF) for improved wildfire spread modelling

Agricultural and Forest Meteorology, 15 September 2025

Molly A. Harrison, Philip J. Noske, ... Thomas Keeble

View PDF

Research article

A retrospective assessment of fuel break effectiveness for containing rangeland wildfires in the sagebrush biome

Journal of Environmental Management, 1 September 2023

Cali L. Weise, Brianne E. Brussee, ... Mark A. Ricca

Review article *Open access*

Intelligent fire modeling in wildland-urban interface: A comprehensive review of current progress, challenges, and future perspectives

Journal of Safety Science and Resilience, Available online 6 September 2025

Ao Zheng, Rui Ba, ... Xinyi Han

View PDF

Research article *Open access*

Will It Burn? Characterizing Wildfire Risk for the Sagebrush Conservation Design

Rangeland Ecology & Management, November 2024

Michele R. Crist, Karen C. Short, ... Julia H. Olszewski

View PDF

Research article *Open access*

Modeling wildfire dynamics through a physics-based approach incorporating fuel moisture and landscape heterogeneity

Environmental Modelling & Software, August 2025

Adrián Navas-Montilla, Cordula Reisch, ... Ilhan Özgen-Xian

View PDF

Research article *Open access*

Forest fuel structure and loading along a gradient of gray-phase mountain pine beetle severity in Jasper National Park, Alberta, Canada

Canadian Journal of Forest Research, 21 August 2025

Tristan Skretting, Laura Chasmer, ... Daniel D. B. Perrakis

Review article *Open access*

Work Exposome and Related Disorders of Firefighters: An Overview of Systematized Reviews

Safety and Health at Work, June 2025

Alexis Descatha, Hugues Dousseau, ... Marc Fadel

View PDF

Research article *Open access*

Optimizing fuel treatments for community wildfire mitigation planning

Journal of Environmental Management, November 2024

Nima Karimi, Patrick Mahler, Jennifer L. Beverly

View PDF

Research article *Open access*

Conceptual design of a wildfire emergency response system empowered by swarms of unmanned aerial vehicles

International Journal of Disaster Risk Reduction, 15 June 2025

Mohammad Tavakol Sadrabadi, Joaquim Peiró, ... Guillermo Rein

View PDF

Research article

Key elements of defensible space land use bylaw provisions in wildland-urban interface municipalities of Alberta, Canada

International Journal of Disaster Risk Reduction, 1 October 2023

Jake Muffly, S. Jeff Birchall

Research article *Open access*

Tracking wildfire risk to California railroads: integrating environmental data and railway operations

Transportation Research Interdisciplinary Perspectives, July 2025

Karl Kim, Daniele Spirandelli, ... Michelle Toner

View PDF

Research article

Wildfire risk reduction in the United States: Leadership staff perceptions of local fire department roles and responsibilities

International Journal of Disaster Risk Reduction, March 2018

Rachel S. Madsen, Hylton J. G. Haynes, Sarah M. McCaffrey

Research article

Virtual experiments and environmental policy

Journal of Environmental Economics and Management, January 2009

Stephen M. Fiore, Glenn W. Harrison, ... E. Elisabet Rutström

Research article

An optimization approach to prescribed burning for mitigating PM2.5 emissions in wildfire management

Journal of Environmental Management, March 2025

Jianzhou Qi, Jun Zhuang

Research article *Open access*

Bibliometric analysis of fires on wildland-urban interfaces

Natural Hazards Research, September 2022

Xuezheng Zong, Xiaorui Tian

View PDF

Research article

Climate change effects on wildfire hazards in the wildland-urban-interface – Blue pine forests of Bhutan

Forest Ecology and Management, 1 April 2020

Lena Vilà-Vilardell, William S. Keeton, ... Georg Gratzer

Research article *Open access*

A comprehensive analysis of the effect of radiation and Sherwood numbers in wildfire model with moisture convection and diffusion mechanisms

Journal of Radiation Research and Applied Sciences, September 2025

A. B. Zhiri, O. A. Ajala, ... S. O. Sangoniyi

View PDF

Research article

Post-wildfire assessment and fire resilience strategies: a case study from Turkiye, with a critical evaluation of NRC-2021

Journal of Structural Fire Engineering, 24 July 2025

Aslan Soyer, Mehmet Senturk, Hamid Farrokh Ghatte

Review article *Open access*

Deep learning for wildfire risk prediction: Integrating remote sensing and environmental data

ISPRS Journal of Photogrammetry and Remote Sensing, September 2025

ISPRS Journal of Photogrammetry and Remote Sensing, September 2025

Zhengsen Xu, Jonathan Li, ... Lincoln Linlin Xu

View PDF

Research article *Open access*

Fire-spotting modelling in operational wildfire simulators based on Cellular Automata: A comparison study

Agricultural and Forest Meteorology, 1 May 2024

Marcos López-De-Castro, Andrea Trucchia, ... Gianni Pagnini

View PDF

Research article

Prediction of wildfire rate of spread in grasslands using machine learning methods

Environmental Modelling & Software, October 2022

Sadegh Khanmohammadi, Mehrdad Arashpour, ... Yu Bai

Open access

Bridging spatiotemporal wildfire prediction and decision modeling using transformer networks and fuzzy inference systems

MethodsX, December 2025

Parul Dubey, Pushkar Dubey

View PDF

Research article *Open access*

Realistic wildfire growth simulations applying a differentiable parametric representation of the fire front based on Composite Bézier curves

Journal of Computational Science, August 2025

Irene González, Carlos Carrillo, ... Tomàs Margalef

View PDF

Research article

Future climate and fire interactions in the southeastern region of the United States

Forest Ecology and Management, 1 September 2014

Robert J. Mitchell, Yongqiang Liu, ... J. Kevin Hiers

Research article *Open access*

Spain on fire: A novel wildfire risk assessment model based on image satellite processing and atmospheric information

Knowledge-Based Systems, 11 January 2024

Helena Liz López, Javier Huertas Tato, ... David Camacho

Helena Liz-Lopez, Javier Huertas-Tato, ... David Camacho

View PDF

Research article

Modeling wildfire spread in wildland-industrial interfaces using dynamic Bayesian network

Reliability Engineering & System Safety, September 2019

Nima Khakzad

Research article

Playing with fire: Socioeconomic factors and deliberate wildfires in Texas

Journal of Environmental Management, November 2024

Hari Katuwal, Hemanta Kafley

Research article *Open access*

Error Function Impact in Dynamic Data-driven Framework Applied to Forest Fire Spread Prediction

Procedia Computer Science, 2016

Carlos Carrillo, Tomàs Artés, ... Tomàs Margalef

View PDF

Research article Full text access

Vector Field based Tracking of a Dynamic Wildfire Boundary with an UAV

IFAC-PapersOnLine, 2022

Licheng Feng, Jay Katupitiya

View PDF

Research article *Open access*

Managing for heterogeneity reduces fire risk in boreal forest landscapes—A model analysis

Ecological Modelling, October 2025

Yuval R. Zelnik, Samuli Launiainen, Giulia Vico

View PDF

Research article

Controlled burn and immediate mobilization of potentially toxic elements in soil, from a legacy mine site in Central Victoria, Australia

Science of The Total Environment, March 2018

Joji Abraham, Kim Dowling, Singarayer Florentine

Research article

Streamlined wildland-urban interface fire tracing (SWUIFT): Modeling wildfire spread in communities

Environmental Modelling & Software, September 2021

Nima Masoudvaziri, Fernando Szasdi Bardales, ... Negar Elhami-Khorasani

Research article *Open access*

FUELVISION: A multimodal data fusion and multimodel ensemble algorithm for wildfire fuels mapping

International Journal of Applied Earth Observation and Geoinformation, April 2025

Riyaaz Uddien Shaik, Mohamad Alipour, ... Ertugrul Taciroglu

View PDF

Chapter 12: Restoring fire to forests: Contrasting the effects on soils of prescribed fire and wildfire

Soils and Landscape Restoration, 2021

Daniel G. Neary, Jackson M. Leonard

Research article

Optimizing battery and line undergrounding investments for transmission systems under wildfire risk scenarios: A benders decomposition approach

Sustainable Energy, Grids and Networks, September 2025

Ryan Piansky, Rahul Gupta, Daniel K. Molzahn

Research article

Analysis of the future potential impact of environmental and climate changes on wildfire spread in Ghana's ecological zones using a Random Forest (RF) machine learning approach

Remote Sensing Applications: Society and Environment, January 2024

Kueshi Sémanou Dahan, Raymond Abudu Kasei, ... Mohammed Y. Said

Research article *Open access*

Early season wildfires pose the highest threat to buildings and people in Sweden

Fire Safety Journal, October 2025

Frida Vermina Plathner, Johan Sjöström, Anders Granström

View PDF

Research article *Open access*

Fuel layer specific pollutant emission factors for fire prone forest ecosystems of the western U.S. and Canada

Atmospheric Environment: X, December 2022

Shawn P. Urbanski, Russell W. Long, ... Matthew S. Landis

View PDF

Research article *Open access*

Limited immediate effects of wildfire on Alaska moose harvest

Canadian Journal of Forest Research, 21 August 2025

Todd J. Brinkman, Jennifer I. Schmidt, Thomas F. Paragi

Research article

Contribution of regional-scale fire events to ozone and PM2.5 air quality estimated by photochemical modeling approaches

Atmospheric Environment, September 2016

K. R. Baker, M. C. Woody, ... T. Pierce

Research article

Changes in wildfire season in Alaska and the consequences for ambient fine PM in recent decades

Global and Planetary Change, December 2025

Emily Gaw, Nilkamal Jaisawal, ... Yang Li

Research article

Smoke or cloud: Real-time satellite image segmentation in a wildfire data integration application

Computers & Geosciences, October 2025

Sequoia Andrade, Nastaran Shafiei, Peter Mehlitz

Research article *Open access*

Awareness analysis via Weibo social media data of major fire disasters

Journal of Safety Science and Resilience, Available online 16 July 2025

Xiaoyu Sun, Yifei Ding, ... Xinyan Huang
