Research article

A trust management framework using forest fire model to propagate emergency messages in the Internet of Vehicles (IoV)

Vehicular Communications, January 2022

A. K. Fabi, Sabu M. Thampi

Research article *Open access*

Detecting forest fire omission error based on data fusion at subpixel scale

International Journal of Applied Earth Observation and Geoinformation, April 2024

Haizhou Xu, Gui Zhang, ... Huashun Xiao

Research article

FireViTNet: A hybrid model integrating ViT and CNNs for forest fire segmentation

Computers and Electronics in Agriculture, March 2024

Guodong Wang, Di Bai, ... Jingjing Qian

Research article *Open access*

The effect of growth, deforestation, forest fires, and volcanoes on Indonesian regional air quality

Journal of Cleaner Production, 10 June 2024

Rizky Aulia Rahman, Benedict White, Chunbo Ma

View PDF

Research article *Open access*

Release of biogenic volatile organic compounds and physiological responses of two sub-tropical tree species to smoke derived from forest fire

Ecotoxicology and Environmental Safety, 15 April 2024

Yuxuan Guo, Yuanfan Ma, ... Futao Guo

View PDF

Research article

Forest fire susceptibility mapping based on precipitation-constrained cumulative

dryness status information in Southeast China: A novel machine learning modeling approach

Forest Ecology and Management, 15 April 2024

Longlong Zhao, Yuankai Ge, ... Jinsong Chen

Case report *Open access*

Spatial mapping and analysis of forest fire risk areas in Sri Lanka – Understanding environmental significance

Case Studies in Chemical and Environmental Engineering, June 2024

Randika K. Makumbura, Prasad Dissanayake, ... Upaka Rathnayake

View PDF

Research article

Is early evacuation the best and only strategy to protect and mitigate the effects of forest fires in WUI areas? A qualitative research on the residents' response during the 2021 forest fires in NE Attica, Greece

International Journal of Disaster Risk Reduction, 1 April 2023

Ioannis Zikeloglou, Efthimios Lekkas, ... Maria Stavropoulou

Research article *Open access*

Rethinking the focus on forest fires in federal wildland fire management: Landscape patterns and trends of non-forest and forest burned area

Journal of Environmental Management, 1 February 2023

Michele R. Crist

View PDF

Research article *Open access*

Integrating geospatial, remote sensing, and machine learning for climate-induced forest fire susceptibility mapping in Similipal Tiger Reserve, India

Forest Ecology and Management, 1 March 2024

Chiranjit Singha, Kishore Chandra Swain, ... Sanjay Kumar Swain

View PDF

Research article

Forest fire detection utilizing ghost Swin transformer with attention and auxiliary geometric loss

Digital Signal Processing, November 2024

Lili Wang, Haiyan Li, ... Hongsong Li

Research article *Open access*

Assessment of social vulnerability to forest fire and hazardous facilities in Germany

International Journal of Disaster Risk Reduction, March 2023

Alexander Fekete, Udo Nehren

View PDF

Research article *Open access*

Nonparametric Predictive Inference Forest Fire Dashboard

Procedia Computer Science, 2024

Amirah Hazwani Roslin, Noryanti Muhammad

View PDF

Research article *Open access*

The influence of regional wind patterns on air quality during forest fires near Sydney, Australia

Science of The Total Environment, 20 December 2023

Michael A. Storey, Owen F. Price, Paul Fox-Hughes

View PDF

Research article *Open access*

Research on the influencing factors and prevention measures of long-term forest fire risk in Northeast China

Ecological Indicators, November 2023

Boxin Zhang, Deyu Cai, ... Xiaokang Zuo

View PDF

Research article *Open access*

Impacts of forest fire frequency on structure and composition of tropical moist deciduous forest communities of Bandhavgarh Tiger Reserve, Central India

Trees, Forests and People, March 2024

Pranab Kumar Pati, Priya Kaushik, ... P. K. Khare

View PDF

Book chapter

Chapter 14: Assessment and monitoring of forest fire using vegetation indices and AI/ML techniques over google earth engine

Google Earth Engine and Artificial Intelligence for Earth Observation, 2025

Anubhava Srivastava, Amrit Suman, Susham Biswas

Research article

Plant colonisation, soil nutrient patterns and microclimate after a large forest fire in temperate Central Europe

Forest Ecology and Management, 1 June 2025

Vojtěch Lanta, Martin Adámek, ... Alena Sucháčková Bartoňová

Research article *Open access*

Optimizing Forest Fire Prevention: Intelligent Scheduling Algorithms for Drone-Based Surveillance System

Procedia Computer Science, 2023

Mahdi Jemmali, B. Melhim Loai Kayed, ... Mafawez T. Alharbi

View PDF

Research article

Optimal allocation model of forest fire detection towers in protected areas based on fire occurrence risk: Where and how to act?

Canadian Journal of Forest Research, 12 July 2023

Antonio Henrique Cordeiro Ramalho, Nilton Cesar Fiedler, ... Fernanda Moura Fonseca Lucas

Book chapter

Chapter 10: iDroneChain: Intelligent EdgeDrone and blockchain-based secured data delivery for forest fire surveillance

The Role of Blockchain in Disaster Management, 2025

Sreemana Datta, Ditipriya Sinha, ... Mohammad S. Obaidat

Research article *Open access*

Multi-criteria decision analysis for monitoring and evaluating soil erosion risk in forest fire-affected areas

Journal of Environmental Management, January 2025

Francesco Vito Ronco, Annunziata Fiore, ... Francesco Gentile

View PDF

Research article

Evaluation of forest fire risk based on multicriteria decision analysis techniques for Changzhou, China

International Journal of Disaster Risk Reduction, November 2023

Weiyi Ju, Zhixiang Xing, ... Qingchun Kang

Research article *Open access*

Effects of salvage logging after forest fire on Siberian larch regeneration and ecosystem carbon stocks at the drought limit of the boreal forest in Mongolia

Trees, Forests and People, December 2024

Choimaa Dulamsuren, Avirmed Buyanbaatar, ... Daramragchaa Tuya

View PDF

Research article *Open access*

Science in the court: Expert knowledge and forest fires on Indonesia's plantations

Environmental Science & Policy, January 2024

Rini Astuti, Yuti A. Fatimah

View PDF

Research article

Risk of forest fires occurrence on a transition island Amazon-Cerrado: Where to act?

Forest Ecology and Management, 15 May 2023

Mariana de Aquino Aragão, Nilton Cesar Fiedler, ... Fernanda Moura Fonseca Lucas

Research article *Open access*

Forest fire risk mapping with Landsat 8 OLI images: Evaluation of the potential use of vegetation indices

Ecological Informatics, March 2024

Fatih Sivrikaya, Alkan Günlü, ... Okan Ürker

View PDF

Research article

Multi-objective scheduling of priority-based rescue vehicles to extinguish forest fires using a multi-objective discrete gravitational search algorithm

Information Sciences, August 2022

Guangdong Tian, Amir M. Fathollahi-Fard, ... Xingyu Jiang

Research article

Environmental drivers and spatial prediction of forest fires in the Western Ghats biodiversity hotspot, India: An ensemble machine learning approach

Forest Ecology and Management, 15 July 2023

Kanda Naveen Babu, Rahul Gour, ... Narayanaswamy Parthasarathy

Research article *Open access*

Classifying forest cover and mapping forest fire susceptibility in Dak Nong province, Vietnam utilizing remote sensing and machine learning

Ecological Informatics, March 2024

Van The Pham, Tuyet Anh Thi Do, ... Anh Ngoc Thi Do

View PDF

Research article *Open access*

Modelling decisions concerning the dispatch of airtankers for initial attack on forest fires in Ontario, Canada

Canadian Journal of Forest Research, 20 December 2022

Melanie Wheatley, B. Mike Wotton, ... Joshua M. Johnston

Research article *Open access*

Application of multi-criteria decision making models to forest fire management

International Journal of Geoheritage and Parks, March 2022

Roya Abedi

View PDF

Research article *Open access*

Sustainable collaboration: Federated learning for environmentally conscious forest fire classification in Green Internet of Things (IoT)

Internet of Things, April 2024

Ali Akbar Siddique, Nada Alasbali, ... Jawad Ahmad

View PDF

Research article

Application of machine learning models in the behavioral study of forest fires in the Brazilian Federal District region

Engineering Applications of Artificial Intelligence, February 2023

Jesús N. S. Rubí, Paulo H. P. de Carvalho, Paulo R. L. Gondim

Research article *Open access*

Recurrent forest fires, emission of atmospheric pollutants (GHGs) and degradation of tropical dry deciduous forest ecosystem services

Total Environment Research Themes, September 2023

Soumik Saha, Biswajit Bera, ... Partha Pratim Adhikary

View PDF

Research article

Do environmental disasters affect human capital? The threat of forest fires

Economics of Education Review, December 2023

Jayash Paudel

Research article

Areas of the Terai Arc landscape in Nepal at risk of forest fire identified by fuzzy analytic hierarchy process

Environmental Development, March 2023

Ashok Parajuli, Syed Amir Manzoor, Martin Lukac

Research article

BSEIFFS: Blockchain-secured edge-intelligent forest fire surveillance

Future Generation Computer Systems, October 2023

Sreemana Datta, Ditipriya Sinha

Research article *Open access*

Error Function Impact in Dynamic Data-driven Framework Applied to Forest Fire Spread Prediction

Procedia Computer Science, 2016

Carlos Carrillo, Tomàs Artés, ... Tomàs Margalef

View PDF

Research article *Open access*

Area Estimation of Forest Fires using TabNet with Transformers

Procedia Computer Science, 2023

I. de Zarzà, J. de Curtò, Carlos T. Calafate

View PDF

Review article

Perspective: Scientific gaps on forest fires in Brazilian protected areas

Forest Ecology and Management, 1 February 2023

Fernanda Moura Fonseca Lucas, Emmanoella Costa Guaraná Araujo, ... Alexandre França Tetto

Research article

Prediction of forest fire susceptibility applying machine and deep learning algorithms for conservation priorities of forest resources

Remote Sensing Applications: Society and Environment, January 2023

Soumik Saha, Biswajit Bera, ... Nairita Sengupta

Research article

Forest fire occurrence, distribution and risk mapping using geoinformation technology: A case study in the sub-tropical forest of the Meghalaya, India

Remote Sensing Applications: Society and Environment, January 2023

Tapan Dhar, Basudeb Bhatta, S. Aravindan

Research article

Effects of forest fire smoke deposition on soil physico-chemical properties and bacterial community

Science of The Total Environment, 20 January 2024

Zhongpan Zhu, Yuanfan Ma, ... Futao Guo

Research article

Artificial neural networks for assessing forest fire susceptibility in Türkiye

Ecological Informatics, July 2023

Omer Kantarcioglu, Sultan Kocaman, Konrad Schindler

Research article

A reinforcement learning based routing protocol for software-defined networking enabled wireless sensor network forest fire detection

Future Generation Computer Systems, December 2023

Noureddine Moussa, Edmond Nurellari, ... Abdelbaki El Belrhiti El Alaoui

Research article

Forest fire spread simulating model using cellular automaton with extreme learning machine

Ecological Modelling, 24 March 2017

Zhong Zheng, Wei Huang, ... Yongnian Zeng

Research article *Open access*

Estimating annual GHG and particulate matter emissions from rural and forest fires based on an integrated modelling approach

Science of The Total Environment, 10 January 2024

Carla Scarpa, Valentina Bacciu, ... Donatella Spano

View PDF

Research article

Ecological impacts of forest fire on composition and structure of tropical deciduous

forests of central India

Physics and Chemistry of the Earth, Parts A/B/C, December 2022

Gajendra Kumar, Amit Kumar, ... M. L. Khan

Research article

An optimization-based approach for an integrated forest fire monitoring system with multiple technologies and surveillance drones

European Journal of Operational Research, 1 March 2024

Rodrigo De la Fuente, Maichel M. Aguayo, Carlos Contreras-Bolton

Research article *Open access*

Mapping forest fire severity using bi-temporal unmixing of Sentinel-2 data - Towards a quantitative understanding of fire impacts

Science of Remote Sensing, December 2023

Kira Anjana Pfoch, Dirk Pflugmacher, ... Patrick Hostert

View PDF

Research article

Modelling effects of forest fire and post-fire management in a catchment prone to erosion: Impacts on sediment yield

CATENA, May 2022

Anna Maria De Girolamo, Olivier Cerdan, ... Antonio Lo Porto

Research article

Assessing the impact of ecological security and forest fire susceptibility on carbon stocks in Bo Trach district, Quang Binh province, Vietnam

Ecological Informatics, May 2023

The Van Pham, Tuyet Anh Thi Do, ... Anh Ngoc Thi Do

Research article

Efficient forest fire occurrence prediction for developing countries using two weather parameters

Engineering Applications of Artificial Intelligence, August 2011

George E. Sakr, Imad H. Elhajj, George Mitri

Review article

Gasification as a potential solution for forest fires in the Indian Himalayan Region: A review

Bioresource Technology Reports, September 2022

Ankush Halba, Praveen Kumar Vidyarthi, Pratham Arora

Research article *Open access*

Relieving the Effects of Uncertainty in Forest Fire Spread Prediction by Hybrid MPI-OpenMP Parallel Strategies

Procedia Computer Science, 2013

Tomàs Artés, Andrés Cencerrado, ... Tomàs Margalef

View PDF

Research article

Development of an emission estimation method with satellite observations for significant forest fires and comparison with global fire emission inventories: Application to catastrophic fires of summer 2021 over the Eastern Mediterranean

Atmospheric Environment, 1 September 2023

Efem Bilgiç, Gizem Tuna Tuygun, Orhan Gündüz

Research article *Open access*

Forest Fire Propagation Prediction Based on Overlapping DDDAS Forecasts

Procedia Computer Science, 2015

Tomás Artès, Adrián Cardil, ... Joaquín Ramírez

View PDF

Research article

Predicting the potential impact of forest fires on runoff and sediment loads using a distributed hydrological modeling approach

Ecological Modelling, June 2022

Rouhollah Nasirzadehdizaji, Dilek Eren Akyuz

Research article

Preferred vector machine for forest fire detection

Pattern Recognition, November 2023

Xubing Yang, Zhichun Hua, ... Liyong Fu

Research article

Catastrophic PM2.5 emissions from Siberian forest fires: Impacting factors analysis

Environmental Pollution, 1 August 2022

Aleksey A. Romanov, Anastasia N. Tamarovskaya, ... Elijah E. Krikunov

Research article

Research article

An integrated assessment of carbon emissions from forest fires beyond impacts on aboveground biomass. A showcase using airborne lidar and GEDI data over a megafire in Spain

Journal of Environmental Management, 1 November 2023

Adrián Pascual, Juan Guerra-Hernández

Research article

Evolutionary-Statistical System: A parallel method for improving forest fire spread prediction

Journal of Computational Science, January 2015

G. Bianchini, P. Caymes-Scutari, M. Méndez-Garabetti

Research article *Open access*

Coupling Diagnostic and Prognostic Models to a Dynamic Data Driven Forest Fire Spread Prediction System

Procedia Computer Science, 2013

Carlos Brun, Tomàs Margalef, Ana Cortés

View PDF

Research article

A high-precision forest fire smoke detection approach based on ARGNet

Computers and Electronics in Agriculture, May 2022

Jialei Zhan, Yaowen Hu, ... Liujun Li

Research article

Trace gas emissions from laboratory combustion of leaves typically consumed in forest fires in Southwest China

Science of The Total Environment, 10 November 2022

Yuping Sun, Qixing Zhang, ... Yongming Zhang

Research article

Automatic forest fire danger rating calibration: Exploring clustering techniques for regionally customizable fire danger classification

Expert Systems with Applications, 1 May 2022

Jorge S. S. Júnior, João Ruivo Paulo, ... Carlos Viegas

Research article

Emissions of gaseous pollutants released by forest fire in relation to litter fuel moisture

content

Atmospheric Environment, 1 September 2022

Yuanfan Ma, Song Yang, ... Futao Guo

Book chapter

Chapter 15: Forest fire susceptibility mapping and risk assessment using integrated AHP and DEMATEL method for Purulia District, West Bengal (India)

Water, Land, and Forest Susceptibility and Sustainability, 2023

Sanu Dolui

Research article

Optimization of the distance-constrained multi-based multi-UAV routing problem with simulated annealing and local search-based matheuristic to detect forest fires: The case of Turkey

Applied Soft Computing, December 2021

Omer Ozkan

Research article *Open access*

Genetic Algorithm Characterization for the Quality Assessment of Forest Fire Spread Prediction

Procedia Computer Science, 2012

Andrés Cencerrado, Ana Cortés, Tomàs Margalef

View PDF

Book chapter

Chapter 13: A scenario-based approach for modeling and monitoring the impacts of climate change on forest fire using MODIS time series images

Advanced Tools for Studying Soil Erosion Processes, 2024

Mohammad Kazemi Garajeh, Khalil Valizadeh Kamran, ... Bakhtiar Feizizadeh

Research article *Open access*

Relieving Uncertainty in Forest Fire Spread Prediction by Exploiting Multicore Architectures

Procedia Computer Science, 2015

Andrés Cencerrado, Tomàs Artés, ... Tomàs Margalef

View PDF

Review article

Forest fire fuel through the lens of remote sensing: Review of approaches, challenges and future directions in the remote sensing of biotic determinants of fire behaviour

Remote Sensing of Environment, 15 March 2021

Matthew G. Gale, Geoffrey J. Cary, ... Marta Yebra

Research article

Ensemble framework by using nature inspired algorithms for the early-stage forest fire rescue — A case study of dynamic optimization problems

Engineering Applications of Artificial Intelligence, April 2020

HongGuang Zhang, ZiHan Liang, ... YuanAn Liu

Research article *Open access*

Fast forest fire smoke detection using MVMNet

Knowledge-Based Systems, 6 April 2022

Yaowen Hu, Jialei Zhan, ... Liujun Li

View PDF

Research article *Open access*

A comparative study of evolutionary statistical methods for uncertainty reduction in forest fire propagation prediction

Procedia Computer Science, 2017

María Laura Tardivo, Paola Caymes-Scutari, ... Ana Cortés

View PDF

Research article

Promises and dilemmas in forest fire management decision-making: Exploring conditions for community engagement in Australia and Sweden

Forest Policy and Economics, July 2017

Katarina Eckerberg, Marleen Buizer

Research article

The simulation of urban-scale evacuation scenarios with application to the Swinley forest fire

Safety Science, February 2018

Anand Veeraswamy, Edwin R. Galea, ... Thomas E. L. Smith

Research article *Open access*

On the Way of Applying Urgent Computing Solutions to Forest Fire Propagation

Prediction

Procedia Computer Science, 2012

Andrés Cencerrado, Ana Cortés, Tom‘as Margalef

View PDF

Research article

Allocation of water reservoirs to fight forest fires according to the risk of occurrence

Journal of Environmental Management, 15 October 2021

Antonio Henrique Cordeiro Ramalho, Evandro Ferreira da Silva, ... Alexandre Rosa dos Santos

Research article *Open access*

An Energy-Efficient Wireless Power Transmission-Based Forest Fire Detection System

Computers, Materials and Continua, 21 February 2022

Arwa A. Mashat, Niayesh Gharaei, Aliaa M. Alabdali

Research article

Vulnerability of larch forests to forest fires along a latitudinal gradient in eastern Siberia

Canadian Journal of Forest Research, 6 October 2022

A. V. Ivanov, M. Neumann, ... S. Bryanin

Research article *Open access*

Garden structure is critical for building survival in northern forest fires – An analysis using large Swedish wildfires

Safety Science, January 2023

Frida Vermina Plathner, Johan Sjöström, Anders Granström

View PDF

Research article

Modeling susceptibility to forest fires in the Central Corridor of the Atlantic Forest using the frequency ratio method

Journal of Environmental Management, 15 October 2021

Romário O. de Santana, Rafael C. Delgado, Alexandre Schiavetti

Research article *Open archive*

Impacts and management of forest fires in the Republic of Sakha, Russia: A local perspective for a global problem

Polar Science, March 2021

Daiju Narita, Tuyara Gavrilyeva, Aleksandr Isaev

View PDF

Research article

Improving reporting of national greenhouse gas emissions from forest fires for emission reduction benefits: An example from Australia

Environmental Science & Policy, April 2019

Liubov Volkova, Stephen H. Roxburgh, ... Christopher J. Weston

Research article *Open access*

Application of remote sensing and machine learning algorithms for forest fire mapping in a Mediterranean area

Ecological Indicators, October 2021

Meriame Mohajane, Romulus Costache, ... Fatiha Oudija

View PDF

Differences in the intensity of past forest fire events inferred from stable oxygen isotope analysis of charred bark

Canadian Journal of Forest Research, 8 July 2024

Tegan McWhirter, Elizabeth A. Webb, Jeffery P. Dech

Review article *Open access*

Influences of forest fires on the permafrost environment: A review

Advances in Climate Change Research, February 2021

Xiao-Ying Li, Hui-Jun Jin, ... Ning Jia

View PDF

Research article

“There will be mushrooms again” – Foraging, landscape and forest fire

Journal of Outdoor Recreation and Tourism, March 2021

Andrew Butler, Elin Ångman, ... Igor Knez

Research article *Open access*

Prediction Time Assessment in a DDDAS for Natural Hazard Management: Forest Fire Study CaseI

Procedia Computer Science, 2011

Andŕes Cencerrado, Ana Corŕtes, Tom‘as Margalef

View PDF

Research article *Open access*

Towards an integrated forest fire danger assessment system for the European Alps

Ecological Informatics, November 2020

Mortimer M. Müller, Lena Vilà-Vilardell, Harald Vacik

View PDF

Research article Full text access

Short-run environmental effects of COVID-19: Evidence from forest fires

World Development, January 2021

Jayash Paudel

View PDF

Research article *Open access*

Prediction and data mining of burned areas of forest fires: Optimized data matching and mining algorithm provides valuable insight

Artificial Intelligence in Agriculture, 2021

David A. Wood

View PDF

Research article *Open access*

Modelling forest fire and firebreak scenarios in a mediterranean mountainous catchment: Impacts on sediment loads

Journal of Environmental Management, 1 July 2021

Grangeon Thomas, Vandromme Rosalie, ... Lo Porto Antonio

View PDF

Research article *Open access*

Parallel SVM model for forest fire prediction

Soft Computing Letters, December 2021

Kajol R Singh, K. P. Neethu, ... Pushpa Mohan

View PDF

Research article

A data fusion framework with novel hybrid algorithm for multi-agent Decision Support System for Forest Fire

Expert Systems with Applications, August 2011

Çetin Elmas, Yusuf Sönmez

Research article *Open access*

Conceptual Approach of Measuring the Professional and Economic Effectiveness of Drone Applications Supporting Forest fire Management

Procedia Engineering, 2018

Bodnar Laszlo, Restas Agoston, Qiang Xu

View PDF

Research article

The role of central government and local government and the moderating effect of good governance on forest fire policy in Indonesia

Benchmarking: An International Journal, 17 January 2019

Raffles Brotestes Panjaitan, Sumartono, ... Choirul Saleh
