Research article *Open access*

Incorporating fire spread simulation and machine learning algorithms to estimate crown fire potential for pine forests in Sichuan, China

International Journal of Applied Earth Observation and Geoinformation, August 2024

Rui Chen, Binbin He, ... Hongguo Zhang

View PDF

Research article

Investigating disaster response for resilient communities through social media data and the Susceptible-Infected-Recovered (SIR) model: A case study of 2020 Western U.S. wildfire season

Sustainable Cities and Society, 1 July 2024

Zihui Ma, Lingyao Li, ... Yubai Yuan

Research article

Developing a geospatial data-driven solution for rapid natural wildfire risk assessment

Applied Geography, January 2021

Bishrant Adhikari, Chen Xu, ... Thomas Minckley

Research article *Open access*

Limited immediate effects of wildfire on Alaska moose harvest

Canadian Journal of Forest Research, 21 August 2025

Todd J. Brinkman, Jennifer I. Schmidt, Thomas F. Paragi

Research article

The role of fuel treatments in mitigating wildfire risk

Landscape and Urban Planning, February 2024

Xuezheng Zong, Xiaorui Tian, Xianli Wang

Research article

Importance of traditional knowledge to understanding Plebeina armata (Apidae, Meliponini) ecology in the savanna woodland in northeast of Burundi

Pedobiologia, March 2023

Peadbiologia, March 2023

Deogratias Nduwarugira, Alexis Nikiza, ... Longin Ndayikeza

Research article *Open access*

Wildfire danger under changing climates in the southern Great Plains throughout the 21st century

Ecological Indicators, January 2025

Shanmin Fang, Jia Yang, ... Quan Zhang

View PDF

Research article

Evaluating the 10% wind speed rule of thumb for estimating a wildfire's forward rate of spread against an extensive independent set of observations

Environmental Modelling & Software, November 2020

Miguel G. Cruz, Martin E. Alexander, ... Ângelo Sil

Research article

Fire resistance behavior and failure analysis of transmission tower exposed to wildfires

Engineering Failure Analysis, September 2024

Chongkai Fan, Wanzhi Zhou, ... Kairu Hou

Research article

Key elements of defensible space land use bylaw provisions in wildland-urban interface municipalities of Alberta, Canada

International Journal of Disaster Risk Reduction, 1 October 2023

Jake Muffly, S. Jeff Birchall

Research article

Vegetation and wildland fire: Implications of global climate change

Environment International, 1991

Kevin C. Ryan

Research article

Development of an integrated wildfire danger rating system for pre-fire planning and incident forecasting

International Journal of Disaster Risk Reduction, January 2025

Ioannis Zacharakis, Vassilios A. Tsihrintzis

Research article *Open access*

A Neural Emulator for Uncertainty Estimation of Fire Propagation

A Neural Emulator for Uncertainty Estimation of Fire Propagation

Procedia Computer Science, 2023

Andrew Bolt, Conrad Sanderson, ... Petra Kuhnert

View PDF

Research article

Estimation of potential wildfire behavior characteristics to assess wildfire danger in southwest China using deep learning schemes

Journal of Environmental Management, February 2024

Rui Chen, Binbin He, ... Yiru Zhang

Research article

MAPPING WILDFIRE JURISDICTIONAL COMPLEXITY REVEALS OPPORTUNITIES FOR REGIONAL CO-MANAGEMENT

Global Environmental Change, January 2024

Kate Jones, Jelena Vukomanovic, ... Shannon McGovern

Research article *Open access*

Awareness analysis via Weibo social media data of major fire disasters

Journal of Safety Science and Resilience, Available online 16 July 2025

Xiaoyu Sun, Yifei Ding, ... Xinyan Huang

View PDF

Research article *Open access*

Identifying risk information needs of rural communities impacted by wildfire smoke: A mental models approach

International Journal of Disaster Risk Reduction, January 2024

Kristin VanderMolen, Yeongkwon Son, ... Tamara Wall

View PDF

Research article

Wildfire risk in the wildland–urban interface: A simulation study in northwestern Wisconsin

Forest Ecology and Management, 10 October 2009

Avi Bar Massada, Volker C. Radeloff, ... Todd J. Hawbaker

Research article *Open access*

Wildfires and social capital: Evidence from Chile

International Journal of Disaster Risk Reduction, September 2025

Alvaro Hofflinger, Alex Boso, ... Cristóbal Leiva

View PDF

Research article *Open access*

Wildfire risk in Alaska: Spatial association between social vulnerability, wildfire hazard, and wildfire mitigation programs

Landscape and Urban Planning, June 2025

Xiaoyu Liang, Desheng Liu

View PDF

Research article *Open access*

Understanding residential choice under risk: A case study of settlement fire and wildfire risk

Habitat International, June 2023

Sven Christ, Nina Schwarz, Richard Sliuzas

View PDF

Research article *Open access*

Atmospheric dynamics and fire-induced phenomena: Insights from a comprehensive analysis of the Sertã wildfire event

Atmospheric Research, November 2024

I. C. Menezes, D. Lopes, ... A. I. Miranda

View PDF

Research article *Open access*

Road network connectivity explains wildfire probability in Southern Italy

Ecological Indicators, September 2025

Mohsen Mostafa, Mario Elia, ... Raffaele Lafortezza

View PDF

Research article

Comparing historical and current wildfire regimes in the Northern Rocky Mountains using a landscape succession model

Forest Ecology and Management, 1 May 2015

Feng Zhao, Robert Keane, ... Chengquan Huang

Research article

Power line failures and catastrophic wildfires under extreme weather conditions

Engineering Failure Analysis, 15 December 2013

Joseph W. Mitchell

Research article *Open access*

Identifying a network of wildfire evacuation host communities

Safety Science, November 2024

Sabrena Jahan Ohi, Amy M. Kim

View PDF

Research article

Toward equitable environmental exposure modeling through convergence of data, open, and citizen sciences: an example of air pollution exposure modeling amidst increasing wildfire smoke

Environmental Research, 1 December 2025

Honghyok Kim, Chris Chaeha Lim

Research article

Modelling the effect of accelerated forest management on long-term wildfire activity

Ecological Modelling, 1 April 2020

Alan A. Ager, Ana M. G. Barros, ... Michelle A. Day

Research article

A Finsler geodesic spray paradigm for wildfire spread modelling

Nonlinear Analysis: Real World Applications, April 2016

Steen Markvorsen

Research article

Risk externalities and the problem of wildfire risk

Journal of Urban Economics, September 2008

Aric P. Shafran

Research article

Exposure to wildfires and health outcomes of vulnerable people: Evidence from US data

Economics & Human Biology, December 2023

Jiyuan Zheng

Research article *Open access*

Wildfire response of forest species from multispectral LiDAR data. A deep learning approach with synthetic data

Ecological Informatics, July 2024

Lino Comesaña-Cebral, Joaquín Martínez-Sánchez, ... Pedro Arias

View PDF

Research article

Singular and interactive effects of blowdown, salvage logging, and wildfire in sub-boreal pine systems

Forest Ecology and Management, 1 December 2011

Anthony W. D'Amato, Shawn Fraver, ... Laura Patty

Research article

Remapping California's wildland urban interface: A property-level time-space framework, 2000–2020

Applied Geography, June 2024

Aleksander K Berg, Dylan S. Connor, ... Amy E. Frazier

Research article

Assessing the 2023 Canadian wildfire smoke impact in Northeastern US: Air quality, exposure and environmental justice

Science of The Total Environment, 20 May 2024

Manzhu Yu, Shiyan Zhang, ... Kai Zhang

Research article *Open access*

Spatiotemporal evolution characteristics and driving mechanisms of wildfires in China under the context of climate change and human activities

Ecological Indicators, July 2025

Guozhuang Zhang, Leyi Zhang, ... Xindong Wei

View PDF

Research article *Open access*

GeoLCES: Geospatial support for evaluating wildland firefighter lookouts, communications, escape routes, and safety zones

International Journal of Disaster Risk Reduction, 1 October 2025

Michael J. Campbell, Katherine A. Mistick, ... Philip E. Dennison

View PDF

Research article

An interdisciplinary agent-based multimodal wildfire evacuation model: Critical decisions and life safety

Transportation Research Part D: Transport and Environment, February 2022

M. R. K. Siam, Haizhong Wang, ... Kay Axhausen

Research article *Open access*

Can green firebreaks help balance biodiversity, carbon storage and wildfire risk?

Journal of Environmental Management, October 2024

Erica Marshall, Brendan Holyland, ... Trent D. Penman

View PDF

Research article

Assessing wildfire susceptibility and driving variables in Portugal using machine learning approach

Journal for Nature Conservation, August 2025

Vicente Paulo Santana Neto, Adelia de Jesus Nobre Nunes, ... Diogo Nepomuceno Cosenza

Research article

Analysis of utility wildfire risk assessments and mitigations in California

Fire Safety Journal, October 2023

Joseph W. Mitchell

Research article *Open access*

A spatiotemporal optimization engine for prescribed burning in the Southeast US

Ecological Informatics, March 2025

Reetam Majumder, Adam J. Terando, ... Brian J. Reich

View PDF

Research article *Open access*

A Data-driven Model for Large Wildfire Behaviour Prediction in Europe

Procedia Computer Science, 2013

Dario Rodriguez-Aseretto, Daniele de Rigo, ... Jesús San-Miguel-Ayanz

View PDF

Research article

Soil moisture active passive data improve sensitivity assessment of permafrost active layer thickness to wildfire disturbance

Global and Planetary Change, November 2025

Xiao Jiang, Hongyan Cai, Xiaohuan Yang

Review article *Open access*

Leveraging the power of internet of things and artificial intelligence in forest fire

prevention, detection, and restoration: A comprehensive survey

Internet of Things, July 2024

Sofia Giannakidou, Panagiotis Radoglou-Grammatikis, ... Panagiotis Sarigiannidis

View PDF

Research article

Seasonal coastal groundwater dynamics in Lahaina beaches, Hawai'i: Implications for contaminant transport in a post-wildfire setting

Marine Pollution Bulletin, November 2025

Edward Lopez, Xiaolong Geng, ... Christopher Shuler

Research article

A framework for risk assessment and optimal line upgrade selection to mitigate wildfire risk

Electric Power Systems Research, December 2022

Sofia Taylor, Line A. Roald

Research article *Open access*

To burn or not to burn: An empirical assessment of the impacts of wildfires and prescribed fires on trace element concentrations in Western US streams

Science of The Total Environment, 10 March 2023

Mussie T. Beyene, Scott G. Leibowitz, ... Kevin D. Bladon

View PDF

Research article

Wildfire-smoke-precipitation interactions in Siberia: Insights from a regional model study

Science of The Total Environment, 15 November 2024

Igor B. Konovalov, Nikolai A. Golovushkin, Matthias Beekmann

Research article

Fast-moving dire wildfire evacuation simulation

Transportation Research Part D: Transport and Environment, March 2022

Sarah Grajdura, Sachraa Borjigin, Deb Niemeier

Research article

Exploring urban vegetation type and defensible space's role in building loss during wildfire-driven events in California

Landscape and Urban Planning, October 2025

Landscape and Urban Planning, October 2025

Francisco J. Escobedo, Kamini Yadav, ... Nels Johnson

Review article

Rainfall as a driver of post-wildfire flooding and debris flows: A review and synthesis

Earth-Science Reviews, January 2025

Natalie M. Collar, John A. Moody, Brian A. Ebel

Research article

Meteorological factors associated with dry thunderstorms and simultaneous lightning-ignited wildfires: The 15 June 2022 outbreak in Catalonia

Agricultural and Forest Meteorology, 15 December 2024

Nicolau Pineda, Oriol Rodríguez, ... Joan Montanyà

Research article

Dynamics of fire, precipitation, vegetation and NDVI in dry forest environments in NW Argentina. Contributions to environmental archaeology

Journal of Archaeological Science: Reports, April 2018

L. Susana Burry, Patricia I. Palacio, ... Héctor L. D'Antoni

Research article

Spatial dynamics of tree group and gap structure in an old-growth ponderosa pine-California black oak forest burned by repeated wildfires

Forest Ecology and Management, 28 February 2019

Natalie C. Pawlikowski, Michelle Coppoletta, ... Alan H. Taylor

Research article

Assessing wildfire potential within the wildland–urban interface: A southeastern Ohio example

Applied Geography, January 2009

James K. Lein, Nicole I. Stump

Research article *Open access*

Trajectories of wildfire behavior under climate change. Can forest management mitigate the increasing hazard?

Journal of Environmental Management, 15 November 2022

Lauma Elza Miezïte, Aitor Ameztegui, ... Marcos Rodrigues

View PDF

Research article

Streamflow regime characterization in the changing boreal ecosystem: wildfire impacts from stream-to-regional scales

Science of The Total Environment, 20 August 2025

Deanna D. Strohm, Christopher J. Sergeant, ... Jeffrey A. Falke

Review article *Open access*

Wildfire and asthma - The prospective interventions

World Allergy Organization Journal, September 2025

Xingxing Yuan, Liuxin Yang, ... Zhuying Li

View PDF

Research article

The effectiveness of wildfire at meeting restoration goals across a fire severity gradient in the Sierra Nevada

Forest Ecology and Management, 15 March 2025

Adrian J. Das, Lisa M. Rosenthal, Kristen L. Shive

Research article *Open access*

Patterns of burned area by a cellular-automata fire simulator: The role of microscale wind field

Communications in Nonlinear Science and Numerical Simulation, December 2025

A. Sahila, A. Fiorese, ... G. Pagnini

View PDF

Research article *Open access*

Segment-level modeling of wildfire susceptibility in Iranian semi-arid oak forests: Unveiling the pivotal impact of human activities

Trees, Forests and People, March 2024

Akram Sadeghi, Mozhgan Ahmadi Nadoushan, Naser Ahmadi Sani

View PDF

Research article *Open access*

Influence of wildfire emissions to carbon dioxide (CO2) observed at the Mt. Cimone station (Italy, 2165 m asl): A multi-year investigation

Atmospheric Environment, 1 August 2024

Paolo Cristofanelli, Pamela Trisolino, ... Davide Putero

View PDF

Research article *Open access*

Fire regime and management in Canada's protected areas

International Journal of Geoheritage and Parks, June 2022

Weiwei Wang, Wanli Wu, ... Guangyu Wang

View PDF

Research article *Open access*

Changes in soil erosion caused by wildfire: A conceptual biogeographic model

Geomorphology, 15 August 2024

Philip J. Noske, Petter Nyman, ... Gary J. Sheridan

View PDF

Research article Full text access

Social Organisation of Mobile Sensors for Wildfire Spread Estimation

IFAC-PapersOnLine, 2020

T. Plenet, C. Raïevsky, ... S. El Yacoubi

View PDF

Research article

Hydromechanical modeling of evolving post-wildfire regional-scale landslide susceptibility

Engineering Geology, June 2024

Masood Abdollahi, Farshid Vahedifard, Ben A. Leshchinsky

Research article

Wildfire-initiated dead wood legacies: Post-fire habitat and fuels trajectories in westside Pacific Northwest forests, USA

Forest Ecology and Management, 1 November 2025

Oriana E. Chafe, Jeremy S. Fried

Research article

Influence of social capital on community preparedness for wildfires

Landscape and Urban Planning, 15 June 2012

Menka Bihari, Robert Ryan

Research article *Open access*

Logic-based benders decomposition for wildfire suppression

Computers & Operations Research, December 2023

Mitchell G. Harris, Michael A. Forbes, Thomas Taimre

View PDF

Research article

Welfare losses from wildfire smoke: Evidence from daily outdoor recreation data

Journal of Environmental Economics and Management, June 2025

Jacob Gellman, Margaret Walls, Matthew Wibbenmeyer

Research article

Paleo-wildfire signatures revealing co-occurrence of angiosperm-gymnosperm in the early Paleogene: Evidences from woody charcoal and biomarker analysis from the Gurha lignite mine, Rajasthan, India

International Journal of Coal Geology, 1 January 2023

Anumeha Shukla, Andre Jasper, ... R. C. Mehrotra

Research article *Open access*

Social vulnerabilities and wildfire evacuations: A case study of the 2019 Kincade fire

Safety Science, August 2024

Yuran Sun, Ana Forrister, ... Xilei Zhao

View PDF

Research article

Wildfires in the wildland-urban interface: Key concepts and evaluation methodologies

Science of The Total Environment, 10 March 2020

A. Bento-Gonçalves, A. Vieira

Research article *Open access*

Explaining changes in perceived wildfire risk related to the mountain pine beetle outbreak in north central Colorado

Ecological Indicators, November 2021

Hua Qin, Hannah Brenkert-Smith, ... Martha Bass

View PDF

Research article

Improving the reliability and utility of operational bushfire behaviour predictions in Australian vegetation

Environmental Modelling & Software, May 2017

Matt P. Plucinski, Andrew L. Sullivan, ... Mahesh Prakash

Review article

Randomized quasi-Monte Carlo methods in global sensitivity analysis

Reliability Engineering & System Safety, June 2021

Giray Ökten, Yaning Liu

Research article *Open access*

Unlocking the potential of Airborne LiDAR for direct assessment of fuel bulk density and load distributions for wildfire hazard mapping

Agricultural and Forest Meteorology, 1 March 2025

Olivier Martin-Ducup, Jean-Luc Dupuy, ... François Pimont

View PDF

Research article

Collaboration of thermal sensors and drones in fighting wildfires; Mathematical model and heuristic approach

Internet of Things, July 2024

Maryam Momeni, S. Mohammad J. Mirzapour Al-e-Hashem

Research article

Contemporary wildfires are more severe compared to the historical reference period in western US dry conifer forests

Forest Ecology and Management, 15 September 2023

Sean A. Parks, Lisa M. Holsinger, ... Randy Swaty

Research article

A household-level approach to staging wildfire evacuation warnings using trigger modeling

Computers, Environment and Urban Systems, November 2015

Dapeng Li, Thomas J. Cova, Philip E. Dennison

Research article

Assessing influences on social vulnerability to wildfire using surveys, spatial data and wildfire simulations

Journal of Environmental Management, 1 May 2018

Travis B. Paveglio, Catrin M. Edgeley, Amanda M. Stasiewicz

Research article *Open access*

Health impact analysis of PM2.5 from wildfire smoke in Canada (2013–2015, 2017–2018)

Science of The Total Environment, 10 July 2020

Carlyn J. Matz, Marika Egyed, ... David M. Stieb

View PDF

Research article

Wildfire effects on mercury fate in soils of North-Western Siberia

Science of The Total Environment, 15 November 2024

Ekaterina Filimonenko, Georgy Vatutin, ... Yakov Kuzyakov

Case report

Wayfinding during a wildfire evacuation

Disaster Prevention and Management: An International Journal, 28 January 2020

Micah L. Brachman, Richard Church, ... Danielle Bassett

Review article *Open access*

Community resilience to wildfires: A systematic review of impacts, coping strategies, indicators, and governance challenges

Progress in Disaster Science, October 2025

José Sandoval-Díaz, Camila Navarrete-Valladares, ... Carlos Reyes Valenzuela

View PDF

Research article *Open access*

Enhancing prediction of wildfire occurrence and behavior in Alaska using spatio-temporal clustering and ensemble machine learning

Ecological Informatics, March 2025

A. Ahajjam, M. Allgaier, ... T. Pasch

View PDF

Research article

Integrating remote sensing and species' traits to assess bird responses to wildfire in agropastoral landscapes

Biological Conservation, August 2025

D. Scridel, D. Stanič, ... G. Bacaro

Research article

A rapid and quantitative post-wildfire damage assessment of buildings in the 2025 Palisades fire in California based on InSAR

International Journal of Disaster Risk Reduction, 15 October 2025

Ya-Nan Du, De-Cheng Feng

Research article

Generating a downscaled hourly surface soil moisture dataset for wildfire prediction

Journal of Hydrology, November 2025

Haoxuan Yang, Qunming Wang, ... Tyson E. Ochsner

Research article *Open access*

Situational-aware multi-graph convolutional recurrent network (SA-MGCRN) for travel demand forecasting during wildfires

Transportation Research Part A: Policy and Practice, December 2024

Xiaojian Zhang, Xilei Zhao, ... Ruggiero Lovreglio

View PDF

Research article

Equitably allocating wildfire resilience investments for power grids — The curse of aggregation and vulnerability indices

Applied Energy, 15 June 2025

Madeleine Pollack, Ryan Piansky, ... Daniel Molzahn

Research article *Open access*

Associations between PM2.5 from prescribed burning and emergency department visits in 11 Southeastern US states

Environment International, September 2025

Jennifer D. Stowell, Kamal J. Maji, ... Gregory A. Wellenius

View PDF

Research article

Modeling for ecosystem management in Minnesota pine forests

Biological Conservation, June 1997

J. R. Tester, A. M. Starfield, L. E. Frelich

Research article

A model for assessing water quality risk in catchments prone to wildfire

Journal of Hydrology, March 2016

Christoph Langhans, Hugh G. Smith, ... Gary J. Sheridan

Short communication

Brazil on fire: Igniting awareness of the 2024 wildfire crisis

Journal of Environmental Management, August 2025

Rodrigo Béllo Carvalho, Imma Oliveras Menor, ... Rodolfo Dirzo

Review article

Tamm Review: Shifting global fire regimes: Lessons from reburns and research needs

Forest Ecology and Management, 15 July 2017

Susan J. Prichard, Camille S. Stevens-Rumann, Paul F. Hessburg

Research article

Wildfire evacuation decision modeling using GPS data

International Journal of Disaster Risk Reduction, December 2022

Alex Wu, Xiang Yan, ... Xilei Zhao

Research article *Open access*

Ground robot technologies in wildfire risk reduction. The viewpoint of the fire service

Progress in Disaster Science, April 2025

Pawel Gromek, Thomas Lowe

View PDF

Research article

A spatially explicit multi-hazard framework for assessing flood, landslide, wildfire, and drought susceptibilities

Advances in Space Research, 1 February 2025

Bahram Choubin, Abolfazl Jaafari, Davood Mafi-Gholami
