Review article

Forecasting vegetation indices from spatio-temporal remotely sensed data using deep learning-based approaches: A systematic literature review

Ecological Informatics, May 2022

Aya Ferchichi, Ali Ben Abbes, ... Imed Riadh Farah

Research article

Analyzing wildfire evacuation dynamics with agent-based modeling in damaged road networks

Safety Science, July 2025

Fangjiao Ma, Ji Yun Lee

Research article *Open access*

Measuring evacuation rates from mobility data during the McDougall Creek wildfire in British Columbia, Canada

Computers, Environment and Urban Systems, July 2025

Hui Jeong Ha, Jed A. Long

View PDF

Research article *Open access*

Atmospheric dynamics and fire-induced phenomena: Insights from a comprehensive analysis of the Sertã wildfire event

Atmospheric Research, November 2024

I. C. Menezes, D. Lopes, ... A. I. Miranda

View PDF

Research article

Meet the people where they are: Assessing user needs for aftershock forecast products in El Salvador, Mexico and the United States

International Journal of Disaster Risk Reduction, July 2025

Max Schneider, Anne Wein, ... Morgan Page

Research article *Open access*

Valuing co-benefits of forest fuels treatment for reducing wildfire risk in California's Sierra Nevada

Science of The Total Environment, 25 October 2025

Han Guo, Michael Goulden, ... Roger Bales

View PDF

Research article

Toward equitable environmental exposure modeling through convergence of data, open, and citizen sciences: an example of air pollution exposure modeling amidst increasing wildfire smoke

Environmental Research, 1 December 2025

Honghyok Kim, Chris Chaeha Lim

Research article

Singular and interactive effects of blowdown, salvage logging, and wildfire in sub-boreal pine systems

Forest Ecology and Management, 1 December 2011

Anthony W. D'Amato, Shawn Fraver, ... Laura Patty

Research article

Urban air quality index forecasting using multivariate convolutional neural network based customized stacked long short-term memory model

Process Safety and Environmental Protection, November 2024

Sweta Dey

Research article *Open access*

Ground robot technologies in wildfire risk reduction. The viewpoint of the fire service

Progress in Disaster Science, April 2025

Pawel Gromek, Thomas Lowe

View PDF

Research article *Open access*

Identifying risk information needs of rural communities impacted by wildfire smoke: A mental models approach

International Journal of Disaster Risk Reduction, January 2024

Kristin VanderMolen, Yeongkwon Son, ... Tamara Wall

View PDF

Research article *Open access*

Fire regime and management in Canada's protected areas

International Journal of Geoheritage and Parks, June 2022

Weiwei Wang, Wanli Wu, ... Guangyu Wang

View PDF

Research article

Catastrophe bond spread and hurricane arrival frequency

The North American Journal of Economics and Finance, November 2020

Carolyn W. Chang, Yu-Jen Wang, Min-Teh Yu

Research article

The role of fuel treatments in mitigating wildfire risk

Landscape and Urban Planning, February 2024

Xuezheng Zong, Xiaorui Tian, Xianli Wang

Research article

Reliability of satellite-based vegetation maps for planning wildfire-fuel treatments in shrub steppe: Inferences from two contrasting national parks

Journal of Environmental Management, July 2025

Samuel “Jake” Price, Chad R. Kluender, ... Thomas Rodhouse

Research article *Open access*

Health impact analysis of PM2.5 from wildfire smoke in Canada (2013–2015, 2017–2018)

Science of The Total Environment, 10 July 2020

Carlyn J. Matz, Marika Egyed, ... David M. Stieb

View PDF

Research article *Open access*

Tree and stand characteristics moderate wildfire severity and promote resilience in secondary coast redwood forests

Forest Ecology and Management, 15 November 2025

Jeffrey M. Kane, Jackson T. Carrasco

View PDF

Research article

Fog-assisted IoT-enabled scalable network infrastructure for wildfire surveillance

Journal of Network and Computer Applications, 15 October 2019

Harkiran Kaur, Sandeep K. Sood

Research article

A framework for risk assessment and optimal line upgrade selection to mitigate wildfire risk

Electric Power Systems Research, December 2022

Sofia Taylor, Line A. Roald

Research article *Open access*

Wildfires and social capital: Evidence from Chile

International Journal of Disaster Risk Reduction, September 2025

Alvaro Hofflinger, Àlex Boso, ... Cristóbal Leiva

View PDF

Research article *Open access*

Patterns of burned area by a cellular-automata fire simulator: The role of microscale wind field

Communications in Nonlinear Science and Numerical Simulation, December 2025

A. Sahila, A. Fiorese, ... G. Pagnini

View PDF

Research article

Streamflow regime characterization in the changing boreal ecosystem: wildfire impacts from stream-to-regional scales

Science of The Total Environment, 20 August 2025

Deanna D. Strohm, Christopher J. Sergeant, ... Jeffrey A. Falke

Research article

Evaluating seawater intrusion forecast uncertainty under climate change in the Pajaro Valley, California

Journal of Hydrology, June 2024

Marisa M. Earll, Wesley R. Henson, ... Scott E. Boyce

Research article

Wildfires in the wildland-urban interface: Key concepts and evaluation methodologies

Science of The Total Environment, 10 March 2020

A. Bento-Gonçalves, A. Vieira

Research article

The effectiveness of wildfire at meeting restoration goals across a fire severity gradient

in the Sierra Nevada

Forest Ecology and Management, 15 March 2025

Adrian J. Das, Lisa M. Rosenthal, Kristen L. Shive

Research article *Open access*

Climate-sensitive forecasts of marked short-term and long-term changes in the distributions or abundances of Northwestern boreal landbirds

Climate Change Ecology, July 2024

A. Raymundo, T. Micheletti, ... S. G. Cumming

View PDF

Research article

Before the flames: California WUI residents' understanding of fire weather warnings and personal preparation around wildfire

International Journal of Disaster Risk Reduction, 1 April 2025

Alyssa S. Thomas, Emily E. Schlickman, Joseph E. Trujillo-Falcón

Research article *Open access*

Wildfire danger under changing climates in the southern Great Plains throughout the 21st century

Ecological Indicators, January 2025

Shanmin Fang, Jia Yang, ... Quan Zhang

View PDF

Research article *Open access*

Modeling the spread of forest fires through cellular automata by leveraging deep learning to derive transition rules

Ecological Informatics, September 2025

Zucheng Zhou, Quanli Xu, ... Wenhui Li

View PDF

Research article

Risk externalities and the problem of wildfire risk

Journal of Urban Economics, September 2008

Aric P. Shafran

Research article *Open access*

Machine learning for wildfire classification: Exploring blackbox, eXplainable, symbolic, and SMOTE methods

and SMOTE methods

Natural Hazards Research, September 2022

Mohammad Khaled Al-Bashiti, M. Z. Naser

View PDF

Research article *Open access*

Forecasting international financial stress: The role of climate risks

Journal of International Financial Markets, Institutions and Money, April 2024

Santino Del Fava, Rangan Gupta, ... Lavinia Rognone

View PDF

Research article *Open access*

Leveraging national forestry data repositories to advocate wildfire modeling towards simulation-driven risk assessment

Ecological Indicators, January 2024

Juan Luis Gómez-González, Alexis Cantizano, ... Mario Castro

View PDF

Research article *Open access*

Influence of wildfire emissions to carbon dioxide (CO2) observed at the Mt. Cimone station (Italy, 2165 m asl): A multi-year investigation

Atmospheric Environment, 1 August 2024

Paolo Cristofanelli, Pamela Trisolino, ... Davide Putero

View PDF

Research article

Fire resistance behavior and failure analysis of transmission tower exposed to wildfires

Engineering Failure Analysis, September 2024

Chongkai Fan, Wanzhi Zhou, ... Kairu Hou

Research article

Fragmented, Materialized, Militarized Geopolitics of Wildfires in the Inter-Korean Border

Geoforum, October 2024

Junsoo Kim, Seung-Ook Lee

Research article *Open access*

Logic-based benders decomposition for wildfire suppression

Computers & Operations Research, December 2023

Mitchell G. Harris, Michael A. Forbes, Thomas Taimre

View PDF

Short communication *Open access*

Wildfire in the geological record: Application of Quaternary methods to deep time studies

Evolving Earth, 1 December 2023

Jennifer M. Galloway, Sofie Lindström

View PDF

Research article *Open access*

Modeling residential development in California from 2000 to 2050: Integrating wildfire risk, wildland and agricultural encroachment

Land Use Policy, November 2014

Michael L. Mann, Peter Berck, ... D. Richard Cameron

View PDF

Research article *Open access*

Spatiotemporal evolution characteristics and driving mechanisms of wildfires in China under the context of climate change and human activities

Ecological Indicators, July 2025

Guozhuang Zhang, Leyi Zhang, ... Xindong Wei

View PDF

Research article

Assessing the effects of landcover and land use change on wildfire exposure and risk to communities and olive orchards in Mediterranean landscapes

Science of The Total Environment, 20 December 2024

Aaron M. Sparks, Stylianos Manoudakis, ... Chariton Kalaitzidis

Research article *Open access*

AEGIS App: Wildfire Information Management for Windows Phone Devices

Procedia Computer Science, 2015

Nikos Athanasis, Fotis Karagiannis, ... Kostas Kalabokidis

View PDF

Research article *Open access*

GeoLCES: Geospatial support for evaluating wildland firefighter lookouts, communications, escape routes, and safety zones

International Journal of Disaster Risk Reduction, 1 October 2025

Michael J. Campbell, Katherine A. Mistick, ... Philip E. Dennison

Michael J. Campbell, Katherine A. Mistick, ... Philip E. Dennison

View PDF

Research article *Open access*

Modeling human transmissibility via nighttime light remote sensing for Hyphantria cunea propagation pattern prediction

Ecological Informatics, May 2024

Jiangxia Ye, Wenbin Quan, ... Xiaoyan Wei

View PDF

Research article

Wildfire risk in the wildland–urban interface: A simulation study in northwestern Wisconsin

Forest Ecology and Management, 10 October 2009

Avi Bar Massada, Volker C. Radeloff, ... Todd J. Hawbaker

Research article

Assimilation of water temperature and discharge data for ensemble water temperature forecasting

Journal of Hydrology, November 2017

Sébastien Ouellet-Proulx, Olivier Chimi Chiadjeu, ... André St-Hilaire

Encyclopedia

5.31: Prediction and Forecasting of Mass-Movements

Treatise on Geomorphology (Second Edition), 2022

Filippo Catani, Samuele Segoni

Research article

The Vegetation Structure Perpendicular Index (VSPI): A forest condition index for wildfire predictions

Remote Sensing of Environment, April 2019

Andrea Massetti, Christoph Rüdiger, ... James Hilton

Research article *Open access*

Incorporating fire spread simulation and machine learning algorithms to estimate crown fire potential for pine forests in Sichuan, China

International Journal of Applied Earth Observation and Geoinformation, August 2024

Rui Chen, Binbin He, ... Hongguo Zhang

View PDF

Research article

The impact of California wildfires on patient access to prescription opioids

Journal of the American Pharmacists Association, November–December 2022

Iraklis E. Tseregounis, Chris Delcher, ... Stephen G. Henry

Research article *Open access*

Assessing wildfire susceptibility in Iran: Leveraging machine learning for geospatial analysis of climatic and anthropogenic factors

Trees, Forests and People, March 2025

Ehsan Masoudian, Ali Mirzaei, Hossein Bagheri

View PDF

Research article

Contemporary wildfires are more severe compared to the historical reference period in western US dry conifer forests

Forest Ecology and Management, 15 September 2023

Sean A. Parks, Lisa M. Holsinger, ... Randy Swaty

Research article

Assessing wildfire susceptibility and driving variables in Portugal using machine learning approach

Journal for Nature Conservation, August 2025

Vicente Paulo Santana Neto, Adelia de Jesus Nobre Nunes, ... Diogo Nepomuceno Cosenza

Research article *Open access*

Are the data good enough? Spatial and temporal modeling of evacuee behavior using GPS data in a small rural community

International Journal of Disaster Risk Reduction, January 2025

Bahareh Raei, Max Kinateder, ... Xin Wang

View PDF

Research article *Open access*

Methods for spatial and temporal detection of forest wildfire disturbance based on time series Eco-environment indicators

Ecological Indicators, November 2024

Cuicui Ji, Changbin Wu, ... Bin Sun

View PDF

Research article *Open access*

Segment-level modeling of wildfire susceptibility in Iranian semi-arid oak forests: Unveiling the pivotal impact of human activities

Trees, Forests and People, March 2024

Akram Sadeghi, Mozhgan Ahmadi Nadoushan, Naser Ahmadi Sani

View PDF

Research article *Open access*

Burning through information: An investigation of information sources and information seeking behavior during 2020 Oregon wildfires

International Journal of Disaster Risk Reduction, 15 October 2024

Cara Lawson, Sudarshan Adhikari, ... Laura Fischer

View PDF

Research article

Analyzing public response to wildfires: A socio-spatial study using SIR models and NLP techniques

Computers, Environment and Urban Systems, October 2025

Zihui Ma, Guangxiao Hu, ... Gregory B. Baecher

Research article *Open access*

Combining community observations and remote sensing to examine the effects of roads on wildfires in the East Siberian boreal forest

Arctic Science, 3 November 2022

Vera Kuklina, Oleg Sizov, ... Andrey N. Petrov

Research article

Ensemble-based simultaneous input and state estimation for nonlinear dynamic systems with application to wildfire data assimilation

Control Engineering Practice, June 2017

Huazhen Fang, Thayjes Srivas, ... Mulugeta A. Haile

Review article

Tamm Review: Shifting global fire regimes: Lessons from reburns and research needs

Forest Ecology and Management, 15 July 2017

Susan J. Prichard, Camille S. Stevens-Rumann, Paul F. Hessburg

Research article

Wildfire-initiated dead wood legacies: Post-fire habitat and fuels trajectories in westside

Wildfire-initiated dead wood legacies: Post-fire habitat and fuels trajectories in westside Pacific Northwest forests, USA

Forest Ecology and Management, 1 November 2025

Oriana E. Chafe, Jeremy S. Fried

Research article *Open access*

Using multi-date satellite imagery to monitor invasive grass species distribution in post-wildfire landscapes: An iterative, adaptable approach that employs open-source data and software

International Journal of Applied Earth Observation and Geoinformation, July 2017

Amanda M. West, Paul H. Evangelista, ... Stephen M. Chignell

View PDF

Research article *Open access*

Associations between PM2.5 from prescribed burning and emergency department visits in 11 Southeastern US states

Environment International, September 2025

Jennifer D. Stowell, Kamal J. Maji, ... Gregory A. Wellenius

View PDF

Research article

Bayesian Physics Informed Neural Networks for data assimilation and spatio-temporal modelling of wildfires

Spatial Statistics, June 2023

Joel Janek Dabrowski, Daniel Edward Pagendam, ... Petra Kuhnert

Research article *Open access*

Nurturing partnerships to support data access for impact forecasts and warnings: Theoretical integration and synthesis

International Journal of Disaster Risk Reduction, 15 April 2024

Sara E. Harrison, Sally H. Potter, ... David Johnston

View PDF

Research article *Open access*

Factors affecting severity of wildfires in Scottish heathlands and blanket bogs

Science of The Total Environment, 25 June 2024

Noemi A. L. Naszarkowski, Thomas Cornulier, ... Robin J. Pakeman

View PDF

Mini review

Global wildfire activity re-visited

Global Environmental Change, December 2024

Opha Pauline Dube

Research article *Open access*

Peat consumption and carbon loss due to smouldering wildfire in a temperate peatland

Forest Ecology and Management, 15 November 2013

G. Matt Davies, Alan Gray, ... Colin J. Legg

View PDF

Research article

Analysis of utility wildfire risk assessments and mitigations in California

Fire Safety Journal, October 2023

Joseph W. Mitchell

Research article *Open access*

Effects of fine particulate matter from wildfire and non-wildfire sources on emergency-department visits in people who were housed and unhoused in San Diego County (CA, USA) during 2012–20: a time-stratified case–crossover study

The Lancet Planetary Health, November 2024

Lara Schwarz, Andrew Nguyen, ... Tarik Benmarhnia

View PDF

Research article

Exploring urban vegetation type and defensible space's role in building loss during wildfire-driven events in California

Landscape and Urban Planning, October 2025

Francisco J. Escobedo, Kamini Yadav, ... Nels Johnson

Research article

Spatio-temporal ecological models via physics-informed neural networks for studying chronic wasting disease

Spatial Statistics, August 2024

Juan Francisco Mandujano Reyes, Ting Fung Ma, ... Jun Zhu

Mini review

Operational perspective of remote sensing-based forest fire danger forecasting systems

ISPRS Journal of Photogrammetry and Remote Sensing, June 2015

Ehsan H. Chowdhury, Quazi K. Hassan

Research article

Examining heterogeneity and wildfire management expenditures using spatially and temporally descriptive data

Journal of Forest Economics, January 2016

Michael S. Hand, Matthew P. Thompson, David E. Calkin

Research article

Evaluating dynamic wildfire evacuation trigger buffers using the 2003 Cedar Fire

Applied Geography, January 2011

Jeremy C. Larsen, Philip E. Dennison, ... Charles Jones

Research article

First estimation and evaluation of hourly biomass burning emissions in north American high latitudes

Remote Sensing of Environment, 15 August 2025

Fangjun Li, Xiaoyang Zhang, Shobha Kondragunta

Research article

A household-level approach to staging wildfire evacuation warnings using trigger modeling

Computers, Environment and Urban Systems, November 2015

Dapeng Li, Thomas J. Cova, Philip E. Dennison

Research article *Open access*

Interdisciplinary challenges for wildfire futures

Environmental Science & Policy, September 2025

T. A. Fairman, J. Aryal, ... L. T. Bennett

View PDF

Research article

Evaluation of wildfire risk in giant panda distribution areas

Ecological Frontiers, August 2025

Zongkun Shi, Hu Zhang, ... Zhenhua Zang

Research article

Hourly biomass burning emissions product from blended geostationary and polar-orbiting satellites for air quality forecasting applications

orbiting satellites for air quality forecasting applications

Remote Sensing of Environment, November 2022

Fangjun Li, Xiaoyang Zhang, ... Christopher C. Schmidt

Research article *Open access*

Parallel SVM model for forest fire prediction

Soft Computing Letters, December 2021

Kajol R Singh, K. P. Neethu, ... Pushpa Mohan

View PDF

Research article

Forecasting annual natural gas consumption in USA: Application of machine learning techniques- ANN and SVM

Resources Policy, January 2023

Sanjeet Singh, Pooja Bansal, ... Sanjeev K. Bansal

Research article

A Finsler geodesic spray paradigm for wildfire spread modelling

Nonlinear Analysis: Real World Applications, April 2016

Steen Markvorsen

Research article *Open access*

Machine learning-based predictions of soil burn severity using spectral and LiDAR remote sensing data

Forest Ecology and Management, 15 November 2025

Ana Novo, Adrián Regos, Cristina Fernández

View PDF

Review article

Influences of wildfire on the forest ecosystem and climate change: A comprehensive study

Environmental Research, 1 January 2024

Kandasamy Gajendiran, Sabariswaran Kandasamy, Mathiyazhagan Narayanan

Research article

Evaluating driving behavior patterns during wildfire evacuations in wildland-urban interface zones using connected vehicles data

Fire Safety Journal, January 2024

Salman Ahmad, Hafiz Usman Ahmed, ... Pan Lu

Research article *Open access*

Optimized stratification approach enhances the weight-of-evidence method: Transparently uncovering wildfire probability and drivers-wildfire relationships in the southwest mountains of China

Ecological Indicators, January 2024

Wenquan Wang, Xiangyang Fang, ... Jiangxia Ye

View PDF

Review article

Developing an indicator system for urban fire risk assessment

Fire Safety Journal, December 2025

Shuai Zhang, Ye Song, ... Long Shi

Research article *Open access*

Social vulnerabilities and wildfire evacuations: A case study of the 2019 Kincade fire

Safety Science, August 2024

Yuran Sun, Ana Forrister, ... Xilei Zhao

View PDF

Research article

Tree survival and growth in the highlands of central Argentina: Impact of wildfires and land management

Forest Ecology and Management, 1 August 2025

Daniel Renison, Iván Barberá, ... Isabell Hensen

Research article

High-resolution mapping of wildfire drivers in California based on machine learning

Science of The Total Environment, 10 August 2022

Linghua Qiu, Ji Chen, ... Chunmiao Zheng

Research article *Open access*

Forecasting disruptions in global food value chains to tackle food insecurity: The role of AI and big data analytics – A bibliometric and scientometric analysis

Journal of Agriculture and Food Research, December 2023

Phemelo Tamasiga, El houssin Ouassou, ... Malesela Molala

View PDF

Research article

A spatially explicit multi-hazard framework for assessing flood, landslide, wildfire, and

A spatially explicit multi-hazard framework for assessing flood, landslide, wildfire, and drought susceptibilities

Advances in Space Research, 1 February 2025

Bahram Choubin, Abolfazl Jaafari, Davood Mafi-Gholami

Research article

Forest connectivity percolation thresholds for fire spread under different weather conditions

Forest Ecology and Management, 15 October 2021

Andrea Duane, Marcelo D. Miranda, Lluís Brotons

Review article *Open access*

Resolving conservation conflict through fire refugia: Integrating landscape resilience into forest management

Journal of Environmental Management, October 2025

Damon B. Lesmeister, Raymond J. Davis, Jeremy T. Rockweit

View PDF

Review article *Open access*

Climate change and child health: The growing burden of climate-related adverse health outcomes

Environmental Research, 15 November 2025

Paula Reichelt, Anne Schumacher, ... Ana Zenclussen

View PDF

Research article

Evaluating forest fire severity and vegetative recovery using Sentinel imagery and spectral indices in a cloud-based environment

Advances in Space Research, 15 October 2025

Sercan Gülci, Michael G. Wing

Review article

A review of very short-term wind and solar power forecasting

Renewable and Sustainable Energy Reviews, January 2022

R. Tawn, J. Browell

Research article *Open access*

Unlocking the potential of Airborne LiDAR for direct assessment of fuel bulk density and load distributions for wildfire hazard mapping

Agricultural and Forest Meteorology, 1 March 2025

Olivier Martin-Ducup, Jean-Luc Dupuy, ... François Pimont
