Short communication

Solar activity as a possible cause of large forest fires — A case study: Analysis of the Portuguese forest fires

Science of The Total Environment, 1 May 2008

J. F. P. Gomes, M. Radovanovic

Research article

The effect of a forest fire disaster on emotions and perceptions of risk: A field study after the Carmel fire

Journal of Environmental Psychology, December 2013

Tal Shavit, Shosh Shahrabani, ... Mosi Rosenboim

Research article *Open access*

Forest fire effects on sediment connectivity in headwater sub-catchments: Evaluation of indices performance

Science of The Total Environment, 25 August 2020

M. López-Vicente, J. González-Romero, M. E. Lucas-Borja

View PDF

Research article

Multi-source land cover classification for forest fire management based on imaging spectrometry and LiDAR data

Forest Ecology and Management, 30 July 2008

B. Koetz, F. Morsdorf, ... B. Allgöwer

Research article

High stocks of coarse woody debris in a tropical rainforest, East Kalimantan: Coupled impact of forest fires and selective logging

Forest Ecology and Management, 15 August 2016

Yoko Osone, Takeshi Toma, ... Tamotsu Sato

Book chapter

Chapter 5: Forest Fires in Europe: Facts and Challenges

Wildfire Hazards, Risks and Disasters, 2015

Fantina Tedim, Gavriil Xanthopoulos, Vittorio Leone

Research article *Open access*

Diurnal variation and prediction method of floor fuel moisture content in a Pinus massoniana-dominated forest in Guizhou province, China

Trees, Forests and People, September 2025

Yunlin Zhang, Man Liu, Na Jin

View PDF

Research article

The state of wildfire and bushfire science: Temporal trends, research divisions and knowledge gaps

Safety Science, September 2022

Milad Haghani, Erica Kuligowski, ... Crystal A. Kolden

Research article

An integrated approach for tactical monitoring and data-driven spread forecasting of wildfires

Fire Safety Journal, July 2017

Mario M. Valero, Oriol Rios, ... Eulàlia Planas

Research article

Designing a forest-energy policy to reduce forest fires in Galicia (Spain): A contingent valuation application

Journal of Forest Economics, August 2010

Mario Soliño, Albino Prada, María X. Vázquez

Research article

What drives European beech (Fagus sylvatica L.) mortality after forest fires of varying severity?

Forest Ecology and Management, 15 May 2016

Janet Maringer, Davide Ascoli, ... Marco Conedera

Research article

Forest fire danger assessment methods and decision support

Safety Science, July 1995

J. L. Wybo, F. Guarniéri, B. Richard

Review article

Influences of wildfire on the forest ecosystem and climate change: A comprehensive study

Environmental Research, 1 January 2024

Kandasamy Gajendiran, Sabariswaran Kandasamy, Mathiyazhagan Narayanan

Research article *Open access*

Deriving forest fire ignition risk with biogeochemical process modelling

Environmental Modelling & Software, May 2014

C. S. Eastaugh, H. Hasenauer

View PDF

Research article

Forest fire occurrence increases the distribution of a scarce forest type in the Mediterranean Basin

Acta Oecologica, January 2013

Xavier Arnan, Lídia Quevedo, Anselm Rodrigo

Research article *Open access*

Patterns of burned area by a cellular-automata fire simulator: The role of microscale wind field

Communications in Nonlinear Science and Numerical Simulation, December 2025

A. Sahila, A. Fiorese, ... G. Pagnini

View PDF

Book chapter

Chapter 30: Management of city vulnerability to bushfire risk using advanced GIS-based spatial tools

Resilient and Sustainable Cities, 2023

Murray Herron, Ali Jalali, ... Emma Duncan

Research article

Modeling and evaluating the effect of forest fire control on the CO2 cycle in Siberia

Energy, August–September 2005

T. Chikahisa, H. Anzai, ... K. Kudo

Research article

Reduced mechanism for the combustion of evolved gases in forest fires

Combustion and Flame, August 2008

Valérie Leroy, Eric Leoni, Paul-Antoine Santoni

Research article

Analysis of urban pollution and forest fire surveillance

Computers, Environment and Urban Systems, July–August 1994

Jean-Christophe Hadorn, Bernard Saugy

Research article

Mapping surface fuel models using lidar and multispectral data fusion for fire behavior

Remote Sensing of Environment, 15 January 2008

Muge Mutlu, Sorin C. Popescu, ... Tom Spencer

Research article

Evaluation of human losses from disasters: The case of the 2010 heat waves and forest fires in Russia

International Journal of Disaster Risk Reduction, March 2014

Boris Porfiriev

Research article *Open access*

Environmental circumstances surrounding bushfire fatalities in Australia 1901–2011

Environmental Science & Policy, March 2014

Raphaele Blanchi, Justin Leonard, ... Felipe Dimer de Oliveira

View PDF

Research article

Hourly biomass burning emissions product from blended geostationary and polar-orbiting satellites for air quality forecasting applications

Remote Sensing of Environment, November 2022

Fangjun Li, Xiaoyang Zhang, ... Christopher C. Schmidt

Research article

Fire risk mapping using machine learning method and remote sensing in the Mediterranean region

Advances in Space Research, 1 April 2025

Fatih Sivrikaya, Döndü Demirel

Research article *Open access*

Peatland forest monitoring and management solution in Peninsular Malaysia: Optimal

parameters for LoRa data

Ain Shams Engineering Journal, May 2025

Nur Luqman Saleh, Aduwati Sali, ... Nordin Ramli

View PDF

Research article

The 1998 Forest Fires in East Kalimantan (Indonesia): A Quantitative Evaluation Using High Resolution, Multitemporal ERS-2 SAR Images and NOAA-AVHRR Hotspot Data

Remote Sensing of Environment, April 2000

Florian Siegert, Anja A Hoffmann

Research article

A data - Model fusion methodology for mapping bushfire fuels for smoke emissions forecasting in forested landscapes of south-eastern Australia

Journal of Environmental Management, 15 September 2018

Liubov Volkova, C. P. (Mick) Meyer, ... Christopher J. Weston

Research article

Simplified coupled atmosphere-fire model for simulation of 2D wildland fires

Computer Physics Communications, October 2025

Daniel San Martin, Claudio E. Torres

Research article

Evaluating forest fire hazard with a Landsat TM derived water stress index

Agricultural and Forest Meteorology, December 1995

Alain Vidal, Claire Devaux-Ros

Research article *Open access*

The role of weather and climate information services to support in wildfire management in Northwestern Europe

Climate Risk Management, 2024

H. A. Lambrechts, C. R. Stoof, ... S. Paparrizos

View PDF

Research article

Forest fire and human interaction in the early Holocene woodlands of Britain

Palaeogeography, Palaeoclimatology, Palaeoecology, December 2000

Jenny Moore

Research article *Open access*

A machine learning predictive model for bushfire ignition and severity: The Study of Australian black summer bushfires

Decision Analytics Journal, March 2025

Kasinda Henderson, Ripon K. Chakrabortty

View PDF

Research article

A geospatial model for real-time predicting rural fire propagation velocity using dynamic algorithms and open data for advanced emergency management

Environmental Modelling & Software, March 2025

Carlos Brys, David Luis La Red Martínez, Marcelo Marinelli

Review article *Open access*

Fire risk assessment system for food and sustainable farming using ai and IoT technologies: Benefits and challenges

Internet of Things, September 2025

Abdennabi Morchid, Zahra Oughannou, ... Pierluigi Siano

View PDF

Research article

Soil profile characteristics influencing runoff and soil erosion after forest fire: A case study (Valencia, Spain)

Soil Technology, May 1997

J. L. Rubio, J. Forteza, ... R. Cerni

Research article

First estimation and evaluation of hourly biomass burning emissions in north American high latitudes

Remote Sensing of Environment, 15 August 2025

Fangjun Li, Xiaoyang Zhang, Shobha Kondragunta

Research article

Estimating forest litter fuel load by integrating remotely sensed foliage phenology and modeled litter decomposition

Remote Sensing of Environment, 1 February 2025

Yanxi Li, Yiru Zhang, ... Thomas A. J. Janssen

Research article *Open access*

Atmospheric dynamics and fire-induced phenomena: Insights from a comprehensive analysis of the Sertã wildfire event

Atmospheric Research, November 2024

I. C. Menezes, D. Lopes, ... A. I. Miranda

View PDF

Research article

Wildfire and the atmosphere: Modelling the chemical and dynamic interactions at the regional scale

Atmospheric Environment, May 2012

S. Strada, C. Mari, ... F. Bosseur

Research article

Isarithmic analysis of forest fire fuelbed arrays

Ecological Modelling, June 1995

Kostas D. Kalabokidis, Philip N. Omi

Research article

Cloud computing based bushfire prediction for cyber–physical emergency applications

Future Generation Computer Systems, February 2018

Saurabh Garg, Jagannath Aryal, ... Rajiv Ranjan

Research article *Open access*

Effect of fire spread, flame characteristic, fire intensity on particulate matter 2.5 released from surface fuel combustion of Pinus koraiensis plantation– A laboratory simulation study

Environment International, August 2022

Jibin Ning, Guang Yang, ... Hongzhou Yu

View PDF

Research article

Improving the reliability and utility of operational bushfire behaviour predictions in Australian vegetation

Environmental Modelling & Software, May 2017

Matt P. Plucinski, Andrew L. Sullivan, ... Mahesh Prakash

Research article *Open access*

Logging Amazon forest increased the severity and spread of fires during the 2015–2016

El Niño

Forest Ecology and Management, 15 November 2021

Paulo Eduardo Barni, Anelícia Cleide Martins Rego, ... Philip Martin Fearnside

View PDF

Research article *Open access*

A Data-driven Model for Large Wildfire Behaviour Prediction in Europe

Procedia Computer Science, 2013

Dario Rodriguez-Aseretto, Daniele de Rigo, ... Jesús San-Miguel-Ayanz

View PDF

Research article

Fog-assisted IoT-enabled scalable network infrastructure for wildfire surveillance

Journal of Network and Computer Applications, 15 October 2019

Harkiran Kaur, Sandeep K. Sood

Research article

From monospecific to mixed forest after fire?: An early forecast for the montane belt of Majella, Italy

Forest Ecology and Management, 25 January 2010

Hein van Gils, Justice O. Odoi, Teodoro Andrisano

Review article *Open access*

Deep artificial intelligence applications for natural disaster management systems: A methodological review

Ecological Indicators, June 2024

Akhyar Akhyar, Mohd Asyraf Zulkifley, ... Byung-Woo Hong

View PDF

Review article

Integrated wildfire danger models and factors: A review

Science of The Total Environment, 15 November 2023

Ioannis Zacharakis, Vassilios A. Tsihrintzis

Research article *Open access*

Forecasting Simulation of Smoke Dispersion from Forest and Land Fires in Indonesia

Procedia Environmental Sciences, 2015

Eko Heriyanto, Lailan Syaufina, Mohamad Sobri

View PDF

Research article *Open access*

Modelling of wildland-urban interface fire spread with the heterogeneous cellular automata model

Environmental Modelling & Software, January 2021

Wenyu Jiang, Fei Wang, ... Qingxiang Meng

View PDF

Research article

Collaboration of thermal sensors and drones in fighting wildfires; Mathematical model and heuristic approach

Internet of Things, July 2024

Maryam Momeni, S. Mohammad J. Mirzapour Al-e-Hashem

Research article

Application of remote sensing and geographic information systems to forest fire hazard mapping

Remote Sensing of Environment, August 1989

Emilio Chuvieco, Russell G. Congalton

Research article

Development of 1 ×1 km gridded emission inventory for air quality assessment and mitigation strategies from open biomass burning in Karnataka, India

Urban Climate, November 2024

Narayan Kayet, Tejaswini Eregowda, ... Geeta Hegde

Research article

(OBIFS) isotropic image analysis for improving a predicting agent based systems

Expert Systems with Applications, 15 September 2013

M. Dolores Muñoz, Aitor Mata, ... Juan Manuel Corchado

Research article *Open access*

Occurrence, probable causes, and management of forest wildfires in the Northern Highlands of Pakistan

Environmental Challenges, April 2024

Mohammad Nafees, Wajid Rashid, ... Eve Bohnett

View PDF

Research article

Smoke exposure levels prediction following laboratory combustion of Pinus koraiensis plantation surface fuel

Science of The Total Environment, 10 July 2023

Jibin Ning, Guang Yang, ... Xueying Di

Research article *Open access*

Water-absorbing bags for high-altitude aerial firefighting: Mathematical modeling and drop pattern analysis

Results in Engineering, September 2025

Haoran Sun, Chengyun Wu, ... Haitao Hu

View PDF

Review article

Forecasting vegetation indices from spatio-temporal remotely sensed data using deep learning-based approaches: A systematic literature review

Ecological Informatics, May 2022

Aya Ferchichi, Ali Ben Abbes, ... Imed Riadh Farah

Research article

Use of maximum entropy to improve validation and prediction of active fires in a Brazilian savanna region

Ecological Modelling, January 2023

Jonathan da Rocha Miranda, Ronie Silva Juvanhol, Rosane Gomes da Silva

Research article *Open access*

A Neural Emulator for Uncertainty Estimation of Fire Propagation

Procedia Computer Science, 2023

Andrew Bolt, Conrad Sanderson, ... Petra Kuhnert

View PDF

Research article *Open access*

Comparative analysis of heatwaves and heat stress in six climatic zones of India based on observed data

Results in Earth Sciences, December 2025

Priyankar Kumar, Arun Chakraborty

View PDF

Review article *Open access*

Deep learning for wildfire risk prediction: Integrating remote sensing and environmental data

ISPRS Journal of Photogrammetry and Remote Sensing, September 2025

Zhengsen Xu, Jonathan Li, ... Lincoln Linlin Xu

View PDF

Research article

Sentinel 2 based burn severity mapping and assessing post-fire impacts on forests and buildings in the Mizoram, a north-eastern Himalayan region

Remote Sensing Applications: Society and Environment, November 2024

Priyanka Gupta, Arun Kumar Shukla, Dericks Praise Shukla

Research article *Open access*

Assessing cost-effectiveness of land management measures to restore forest ecosystem services after fire using hydrological modelling and multi-criteria decision analysis

CATENA, April 2025

Beatriz Faria, João Pedro Nunes, ... Sergio A. Prats

View PDF

Review article *Open access*

Intelligent fire modeling in wildland-urban interface: A comprehensive review of current progress, challenges, and future perspectives

Journal of Safety Science and Resilience, Available online 6 September 2025

Ao Zheng, Rui Ba, ... Xinyi Han

View PDF

Research article *Open access*

Impact of bushfires on Australian livestock health, welfare and carcase quality

Preventive Veterinary Medicine, December 2023

Aashima Auplish, Lachlan Ingram, ... Melanie Smith

View PDF

Research article

What makes a marine heatwave forecast useable, useful and used?

Progress in Oceanography, June 2025

Claire M. Spillman, Alistair J. Hobday, ... Alex Sen Gupta

Review article *Open access*

A comprehensive survey of the machine learning pipeline for wildfire risk prediction and

assessment

Ecological Informatics, December 2025

Naveed Ejaz, Salimur Choudhury

View PDF

Research article

Hybrid deep learn model for estimating burn severity by fusing GEDI, ICEsat-2, and sentinel-2 image

Agricultural and Forest Meteorology, 15 September 2025

Xintai Ma, Zechuan Wu, ... Mingze Li

Research article

A fire following earthquake spread model considering building height and its application to real-world events

International Journal of Disaster Risk Reduction, 15 February 2025

Yuan Tian, Minting Lu, ... Jingyi Ren

Research article

Disturbance causes variation in sub-canopy fire weather conditions

Agricultural and Forest Meteorology, 15 August 2022

Nicholas Wilson, Ross Bradstock, Michael Bedward

Research article *Open access*

Wildfire impacts on the carbon budget of a managed Nordic boreal forest

Agricultural and Forest Meteorology, 15 May 2024

Julia Kelly, Natascha Kljun, ... Cristina Santín

View PDF

Research article

Linking green bond yields to the species composition of forests for improving forest quality and sustainability

Journal of Cleaner Production, 15 December 2022

Ram Ranjan

Research article

Development of an integrated wildfire danger rating system for pre-fire planning and incident forecasting

International Journal of Disaster Risk Reduction, January 2025

Ioannis Zacharakis, Vassilios A. Tsihrintzis

Research article

A triple interference removal network based on temporal and spatial attention interaction for forest smoke recognition in videos

Computers and Electronics in Agriculture, March 2024

Huanjie Tao

Research article *Open access*

Comparison between artificial restoration and natural recovery in vegetation regrowth following high-frequency fire disturbances in the Hengduan Mountains, Southwest China

Ecological Indicators, October 2024

Xiyu Zhang, Gaofei Yin, ... Jun Zhou

View PDF

Research article

Developing the remote sensing-based early warning system for monitoring TSS concentrations in Lake Mead

Journal of Environmental Management, 1 September 2015

Sanaz Imen, Ni-Bin Chang, Y. Jeffrey Yang

Research article

Trend-attribute forecasting of hourly PM2.5 trends in fifteen cities of Central England applying optimized machine learning feature selection

Journal of Environmental Management, April 2024

David A. Wood

Research article

Wildfires in the wildland-urban interface: Key concepts and evaluation methodologies

Science of The Total Environment, 10 March 2020

A. Bento-Gonçalves, A. Vieira

Research article

Seeing is believing: Forecasting oil market returns with artificial intelligence-powered visual climate change perception

Global Finance Journal, December 2025

Dan Liu

Research article

Deep scars of fire: A conundrum of shrinking forests, biological invasions, and dryness leading to lower water provision and security

Total Environment Advances, March 2025

Evandro Luís Rodrigues, Eugênia Kelly Luciano Batista, ... Claudia Maria Jacobi

Review article

Multi-hazard disaster studies: Monitoring, detection, recovery, and management, based on emerging technologies and optimal techniques

International Journal of Disaster Risk Reduction, August 2020

Amina Khan, Sumeet Gupta, Sachin Kumar Gupta

Research article

Ensemble algorithms for modeling forest live fuel loads and multivariate probability proportional to size sampling in Kunming, Yunnan, China

Journal of Cleaner Production, 1 November 2023

Lei Kong, Luojun Wu, ... Wenhong Hu

Research article

Instrumentation of wildland fire: Characterisation of a fire spreading through a Mediterranean shrub

Fire Safety Journal, April 2006

P. A. Santoni, A. Simeoni, ... L. Rossi

Research article

The importance of ground-truth and crowdsourcing data for the statistical and spatial analyses of the NASA FIRMS active fires in the Mediterranean Turkish forests

Remote Sensing Applications: Society and Environment, August 2020

Emre Çolak, Filiz Sunar

Book chapter

Chapter 15: Miscellaneous applications of deep learning based multi-sensor Earth observation

Deep Learning for Multi-Sensor Earth Observation, 2025

Sudipan Saha, Tahir Ahmad, Ashish Yadav

Review article *Open access*

Forest 4.0: Digitalization of forest using the Internet of Things (IoT)

Journal of King Saud University - Computer and Information Sciences, September 2022

Rajesh Singh, Anita Gehlot, ... Prabin Kumar Das

View PDF

Research article *Open access*

Modelling of live fuel moisture content in different vegetation scenarios during dry periods using meteorological data and spectral indices

Forest Ecology and Management, 15 October 2023

Fernando Rodriguez-Jimenez, Henrique Lorenzo, ... Xana Alvarez

View PDF

Open access

Development of national post-fire restoration system to assess net GHG impacts and salvage biomass availability

MethodsX, December 2024

C. Smyth, M. Fellows, ... M. Magnan

View PDF

Research article *Open access*

Assessment of lake-level fluctuation as an indicator of fire activity in boreal Canada

Ecological Indicators, December 2022

Xue Yan Chan, François-Nicolas Robinne, ... Mike D. Flannigan

View PDF

Research article

Etemadi reliability-based multi-layer perceptrons for classification and forecasting

Information Sciences, December 2023

Sepideh Etemadi, Mehdi Khashei, Saba Tamizi

Research article

Assessing spatial patterns and drivers of burn severity in subtropical forests in Southern China based on Landsat 8

Forest Ecology and Management, 15 November 2022

Lingling Guo, Shun Li, ... Long Sun

Review article

Cohesive fire management within an uncertain environment: A review of risk handling and decision support systems

Forest Ecology and Management, 1 July 2015

Abilio Pereira Pacheco, João Claro, ... José Coelho Rodrigues

Research article

Simulation of southern california forest fires

Symposium (International) on Combustion, 1975

A. E. Stevenson, D. A. Schermerhorn, S. C. Miller

Research article

Amazonian farmers' response to fire policies and climate change

Ecological Economics, November 2019

Federico Cammelli, Arild Angelsen

Research article *Open access*

A recent review of fire behavior and fire effects on native vegetation in Central Chile

Global Ecology and Conservation, December 2020

Miguel Castillo S, Álvaro Plaza V, Roberto Garfias S

View PDF

Book chapter

Chapter 1: Overview of extreme weather events, impacts and forecasting techniques

Extreme Weather Forecasting, 2023

No authors available

Research article

Modelling effects of human-caused fires on rill detachment capacity based on surface burning of soils in forest lands

Journal of Hydrology, September 2023

Misagh Parhizkar, Artemio Cerdà
