Review article

Influences of wildfire on the forest ecosystem and climate change: A comprehensive study

Environmental Research, 1 January 2024

Kandasamy Gajendiran, Sabariswaran Kandasamy, Mathiyazhagan Narayanan

Research article

Designing a forest-energy policy to reduce forest fires in Galicia (Spain): A contingent valuation application

Journal of Forest Economics, August 2010

Mario Soliño, Albino Prada, María X. Vázquez

Research article

Spatial and temporal distributions of mercury emissions from forest fires in Mediterranean region and Russian federation

Atmospheric Environment, December 2006

Sergio Cinnirella, Nicola Pirrone

Research article

Forest fire danger assessment methods and decision support

Safety Science, July 1995

J. L. Wybo, F. Guarniéri, B. Richard

Research article

What drives European beech (Fagus sylvatica L.) mortality after forest fires of varying severity?

Forest Ecology and Management, 15 May 2016

Janet Maringer, Davide Ascoli, ... Marco Conedera

Research article *Open access*

Deriving forest fire ignition risk with biogeochemical process modelling

Environmental Modelling & Software, May 2014

C. S. Eastaugh, H. Hasenauer

C. S. Eastaugh, H. Hasenauer

View PDF

Research article

Strategies for restoration of forest ecosystems degraded by forest fire in Kangwon Ecoregion of Korea

Forest Ecology and Management, 1 November 2004

Joon Hwan Shin, Don Koo Lee

Research article

A novel Budyko-based approach to quantify post-forest-fire streamflow response and recovery timescales

Journal of Hydrology, May 2022

Tyler B. Hampton, Nandita B. Basu

Research article

Towards a destination tourism disaster management framework: Long-term lessons from a forest fire disaster

Tourism Management, February 2008

Perry W. Hystad, Peter C. Keller

Research article

Subsides to the creation of a regional model of forest fire hazard: Taquari River Springs Park, MS—A case study

Atmospheric Environment, May 2007

L. M. Mercê de Albuquerque, A. C. Paranhos Filho, ... A. de Souza

Research article

Forest fire occurrence increases the distribution of a scarce forest type in the Mediterranean Basin

Acta Oecologica, January 2013

Xavier Arnan, Lídia Quevedo, Anselm Rodrigo

Research article

Modeling and evaluating the effect of forest fire control on the CO2 cycle in Siberia

Energy, August–September 2005

T. Chikahisa, H. Anzai, ... K. Kudo

Research article

Forest fires and the structure of the universe

Physica A: Statistical Mechanics and its Applications, 1 April 2002

Kan Chen, Per Bak

Editorial

Editor's note on the special section on forest fire meteorology

Agricultural and Forest Meteorology, 10 November 2005

Kyaw Tha Paw U

Research article

A data - Model fusion methodology for mapping bushfire fuels for smoke emissions forecasting in forested landscapes of south-eastern Australia

Journal of Environmental Management, 15 September 2018

Liubov Volkova, C. P. (Mick) Meyer, ... Christopher J. Weston

Research article

Reduced mechanism for the combustion of evolved gases in forest fires

Combustion and Flame, August 2008

Valérie Leroy, Eric Leoni, Paul-Antoine Santoni

Research article *Open access*

Associations between landscape fires and child morbidity in southern Mozambique: a time-series study

The Lancet Planetary Health, January 2024

Ariadna Curto, Jovito Nunes, ... Cathryn Tonne

View PDF

Research article *Open access*

Environmental circumstances surrounding bushfire fatalities in Australia 1901–2011

Environmental Science & Policy, March 2014

Raphaele Blanchi, Justin Leonard, ... Felipe Dimer de Oliveira

View PDF

Research article

Respiratory Diseases Associated With Wildfire Exposure in Outdoor Workers

The Journal of Allergy and Clinical Immunology: In Practice, August 2024

Ahmed Weheba, Anne Vertigan, ... Susan M. Tarlo

Research article

Evaluation of human losses from disasters: The case of the 2010 heat waves and forest

Evaluation of human losses from disasters: The case of the 2010 heat waves and forest fires in Russia

International Journal of Disaster Risk Reduction, March 2014

Boris Porfiriev

Research article *Open access*

Atmospheric dynamics and fire-induced phenomena: Insights from a comprehensive analysis of the Sertã wildfire event

Atmospheric Research, November 2024

I. C. Menezes, D. Lopes, ... A. I. Miranda

View PDF

Research article *Open access*

Forest structure, roads and soil moisture provide realistic predictions of fire spread in modern Swedish landscape

Ecological Modelling, January 2025

Sara Sharon Jones, Maksym Matsala, ... Igor Drobyshev

View PDF

Research article

Hourly biomass burning emissions product from blended geostationary and polar-orbiting satellites for air quality forecasting applications

Remote Sensing of Environment, November 2022

Fangjun Li, Xiaoyang Zhang, ... Christopher C. Schmidt

Research article

Fire risk mapping using machine learning method and remote sensing in the Mediterranean region

Advances in Space Research, 1 April 2025

Fatih Sivrikaya, Döndü Demirel

Research article *Open access*

Patterns of burned area by a cellular-automata fire simulator: The role of microscale wind field

Communications in Nonlinear Science and Numerical Simulation, December 2025

A. Sahila, A. Fiorese, ... G. Pagnini

View PDF

Research article *Open access*

Improving wildland fire spread prediction using deep U-Nets

Science of Remote Sensing, December 2023

Fadoua Khennou, Moulay A. Akhloufi

View PDF

Research article

Evaluating forest fire hazard with a Landsat TM derived water stress index

Agricultural and Forest Meteorology, December 1995

Alain Vidal, Claire Devaux-Ros

Research article *Open access*

A machine learning predictive model for bushfire ignition and severity: The Study of Australian black summer bushfires

Decision Analytics Journal, March 2025

Kasinda Henderson, Ripon K. Chakrabortty

View PDF

Research article

Forest fire and human interaction in the early Holocene woodlands of Britain

Palaeogeography, Palaeoclimatology, Palaeoecology, December 2000

Jenny Moore

Research article

A comparative study of long-term stand growth in eastern Canadian boreal forest: Fire versus clear-cut

Forest Ecology and Management, 15 December 2013

Arnaud Fourrier, David Pothier, Mathieu Bouchard

Research article *Open access*

A Data-driven Model for Large Wildfire Behaviour Prediction in Europe

Procedia Computer Science, 2013

Dario Rodriguez-Aseretto, Daniele de Rigo, ... Jesús San-Miguel-Ayanz

View PDF

Research article *Open access*

The role of weather and climate information services to support in wildfire management in Northwestern Europe

Climate Risk Management, 2024

H. A. Lambrechts, C. R. Stoof, ... S. Paparrizos

View PDF

Research article *Open access*

Integrated fire risk assessment using time-series satellite data and multi-criteria decision-making techniques

Environmental and Sustainability Indicators, December 2025

Abdul Majed Bostani, Sharareh Pourebrahim

View PDF

Research article

A geospatial model for real-time predicting rural fire propagation velocity using dynamic algorithms and open data for advanced emergency management

Environmental Modelling & Software, March 2025

Carlos Brys, David Luis La Red Martínez, Marcelo Marinelli

Research article *Open access*

Outcomes of assisted reproductive technology cycles following bushfire exposure: a retrospective cohort study

Reproductive BioMedicine Online, Available online 12 July 2025

Yujie Cao, Ryan Rose, ... Amy L Winship

View PDF

Research article *Open access*

Water-absorbing bags for high-altitude aerial firefighting: Mathematical modeling and drop pattern analysis

Results in Engineering, September 2025

Haoran Sun, Chengyun Wu, ... Haitao Hu

View PDF

Research article

An integrated approach for tactical monitoring and data-driven spread forecasting of wildfires

Fire Safety Journal, July 2017

Mario M. Valero, Oriol Rios, ... Eulàlia Planas

Review article *Open access*

Fire risk assessment system for food and sustainable farming using ai and IoT technologies: Benefits and challenges

Internet of Things, September 2025

Internet of Things, September 2025

Abdennabi Morchid, Zahra Oughannou, ... Pierluigi Siano

View PDF

Research article

Simplified coupled atmosphere-fire model for simulation of 2D wildland fires

Computer Physics Communications, October 2025

Daniel San Martin, Claudio E. Torres

Research article

Understanding the intention to stay and defend during a bushfire: An application of virtual reality to improve awareness of predictors associated with behavioural response

International Journal of Disaster Risk Reduction, January 2023

Safa Molan, Delene Weber, Matin Kor

Research article *Open access*

Marine soundscape forecasting: A deep learning-based approach

Ecological Informatics, November 2025

Shashidhar Siddagangaiah

View PDF

Research article

Isarithmic analysis of forest fire fuelbed arrays

Ecological Modelling, June 1995

Kostas D. Kalabokidis, Philip N. Omi

Research article

Improving the reliability and utility of operational bushfire behaviour predictions in Australian vegetation

Environmental Modelling & Software, May 2017

Matt P. Plucinski, Andrew L. Sullivan, ... Mahesh Prakash

Research article

Estimating forest litter fuel load by integrating remotely sensed foliage phenology and modeled litter decomposition

Remote Sensing of Environment, 1 February 2025

Yanxi Li, Yiru Zhang, ... Thomas A. J. Janssen

Research article

First estimation and evaluation of hourly biomass burning emissions in north American

First estimation and evaluation of hourly biomass burning emissions in North American high latitudes

Remote Sensing of Environment, 15 August 2025

Fangjun Li, Xiaoyang Zhang, Shobha Kondragunta

Research article

Soil profile characteristics influencing runoff and soil erosion after forest fire: A case study (Valencia, Spain)

Soil Technology, May 1997

J. L. Rubio, J. Forteza, ... R. Cerni

Research article

Use of maximum entropy to improve validation and prediction of active fires in a Brazilian savanna region

Ecological Modelling, January 2023

Jonathan da Rocha Miranda, Ronie Silva Juvanhol, Rosane Gomes da Silva

Review article *Open access*

Deep artificial intelligence applications for natural disaster management systems: A methodological review

Ecological Indicators, June 2024

Akhyar Akhyar, Mohd Asyraf Zulkifley, ... Byung-Woo Hong

View PDF

Research article

Smoke exposure levels prediction following laboratory combustion of Pinus koraiensis plantation surface fuel

Science of The Total Environment, 10 July 2023

Jibin Ning, Guang Yang, ... Xueying Di

Research article

Seeing is believing: Forecasting oil market returns with artificial intelligence-powered visual climate change perception

Global Finance Journal, December 2025

Dan Liu

Review article

Integrated wildfire danger models and factors: A review

Science of The Total Environment, 15 November 2023

Ioannis Zacharakis, Vassilios A. Tsihrintzis

Research article *Open access*

Investigating factors underlying why householders remain in at-risk areas during bushfire disaster in Australia

Heliyon, 30 April 2024

Olufisayo Adedokun, Temitope Egbelakin, ... Thayaparan Gajendran

View PDF

Research article *Open access*

Trajectories of wildfire behavior under climate change. Can forest management mitigate the increasing hazard?

Journal of Environmental Management, 15 November 2022

Lauma Elza Miezïte, Aitor Ameztegui, ... Marcos Rodrigues

View PDF

Research article

Fog-assisted IoT-enabled scalable network infrastructure for wildfire surveillance

Journal of Network and Computer Applications, 15 October 2019

Harkiran Kaur, Sandeep K. Sood

Research article

Application of remote sensing and geographic information systems to forest fire hazard mapping

Remote Sensing of Environment, August 1989

Emilio Chuvieco, Russell G. Congalton

Research article *Open access*

Forecasting Simulation of Smoke Dispersion from Forest and Land Fires in Indonesia

Procedia Environmental Sciences, 2015

Eko Heriyanto, Lailan Syaufina, Mohamad Sobri

View PDF

Research article

Wildfire and the atmosphere: Modelling the chemical and dynamic interactions at the regional scale

Atmospheric Environment, May 2012

S. Strada, C. Mari, ... F. Bosseur

Research article *Open access*

Comparison between artificial restoration and natural recovery in vegetation regrowth following high-frequency fire disturbances in the Hengduan Mountains, Southwest China

Ecological Indicators, October 2024

Xiyu Zhang, Gaofei Yin, ... Jun Zhou

View PDF

Research article *Open access*

Understanding forest fragmentation dynamics and identifying drivers for forest cover loss using random forest models to develop effective forest management strategies in North-East India

Results in Engineering, June 2025

Soumik Mahapatra, Bishal Kumar Majhi, ... Upaka Rathnayake

View PDF

Research article

(OBIFS) isotropic image analysis for improving a predicting agent based systems

Expert Systems with Applications, 15 September 2013

M. Dolores Muñoz, Aitor Mata, ... Juan Manuel Corchado

Research article

Hybrid deep learn model for estimating burn severity by fusing GEDI, ICEsat-2, and sentinel-2 image

Agricultural and Forest Meteorology, 15 September 2025

Xintai Ma, Zechuan Wu, ... Mingze Li

Research article

Cloud computing based bushfire prediction for cyber–physical emergency applications

Future Generation Computer Systems, February 2018

Saurabh Garg, Jagannath Aryal, ... Rajiv Ranjan

Research article

Collaboration of thermal sensors and drones in fighting wildfires; Mathematical model and heuristic approach

Internet of Things, July 2024

Maryam Momeni, S. Mohammad J. Mirzapour Al-e-Hashem

Research article

Forecasting the air pollution concentration with neural networks

Urban Climate, February 2025

Jarosław Bernacki

Research article *Open access*

Occurrence, probable causes, and management of forest wildfires in the Northern Highlands of Pakistan

Environmental Challenges, April 2024

Mohammad Nafees, Wajid Rashid, ... Eve Bohnett

View PDF

Research article

Temporal variation in soil detachment capacity of high-severity post-fire in dry-warm valley forest lands in Southwest China

Journal of Hydrology, December 2025

Xiaosong Qin, Yi Wang, ... Jia Xu

Research article

Encouraging evacuation: The role of behavioural message inputs in bushfire warnings

International Journal of Disaster Risk Reduction, January 2022

Amisha M. Mehta, Scott Murray, ... Vivienne Tippett

Research article

Fire classification and detection in imbalanced remote sensing images using a three-sphere model combined with YOLOv5

Applied Soft Computing, June 2025

Zidong Nie, Yitian Xu, ... Min Yuan

Review article *Open access*

Application of artificial intelligence in air pollution monitoring and forecasting: A systematic review

Environmental Modelling & Software, February 2025

Sreeni Chadalavada, Oliver Faust, ... Rajendra Acharya

View PDF

Research article

High-severity fire reduces soil erosion resistance: A study based on 4-year field monitoring data in dry-warm valley in Southwest China

CATENA, November 2025

Xiaosong Qin, Yi Wang, ... Jia Xu

Research article

Evolution characteristics of post-fire debris flow in Xiangjiao gully, Muli County

CATENA, November 2024

Huaquan Yang, Jinfeng Liu, ... Dongxu Yang

Research article

Disturbance causes variation in sub-canopy fire weather conditions

Agricultural and Forest Meteorology, 15 August 2022

Nicholas Wilson, Ross Bradstock, Michael Bedward

Research article

What makes a marine heatwave forecast useable, useful and used?

Progress in Oceanography, June 2025

Claire M. Spillman, Alistair J. Hobday, ... Alex Sen Gupta

Research article

Forecasting of future greenhouse gas emission trajectory for India using energy and economic indexes with various metaheuristic algorithms

Journal of Cleaner Production, 1 August 2022

Hüseyin Bakır, Ümit Ağbulut, ... Asif Afzal

Review article *Open access*

Deep learning for wildfire risk prediction: Integrating remote sensing and environmental data

ISPRS Journal of Photogrammetry and Remote Sensing, September 2025

Zhengsen Xu, Jonathan Li, ... Lincoln Linlin Xu

View PDF

Research article *Open access*

Enhancing prediction of wildfire occurrence and behavior in Alaska using spatio-temporal clustering and ensemble machine learning

Ecological Informatics, March 2025

A. Ahajjam, M. Allgaier, ... T. Pasch

View PDF

Book chapter

Chapter 15: Miscellaneous applications of deep learning based multi-sensor Earth observation

Deep Learning for Multi-Sensor Earth Observation, 2025

Sudipan Saha, Tahir Ahmad, Ashish Yadav

Research article *Open access*

Comparative analysis of heatwaves and heat stress in six climatic zones of India based on observed data

Results in Earth Sciences, December 2025

Priyankar Kumar, Arun Chakraborty

View PDF

Research article *Open access*

Google Earth Engine-based mapping of land use and land cover for weather forecast models using Landsat 8 imagery

Ecological Informatics, May 2024

Mohammad Ganjirad, Hossein Bagheri

View PDF

Research article *Open access*

Effect of fire spread, flame characteristic, fire intensity on particulate matter 2.5 released from surface fuel combustion of Pinus koraiensis plantation– A laboratory simulation study

Environment International, August 2022

Jibin Ning, Guang Yang, ... Hongzhou Yu

View PDF

Research article

Development of an integrated wildfire danger rating system for pre-fire planning and incident forecasting

International Journal of Disaster Risk Reduction, January 2025

Ioannis Zacharakis, Vassilios A. Tsihrintzis

Review article *Open access*

Intelligent fire modeling in wildland-urban interface: A comprehensive review of current progress, challenges, and future perspectives

Journal of Safety Science and Resilience, Available online 6 September 2025

Ao Zheng, Rui Ba, ... Xinyi Han

View PDF

Research article *Open access*

Peatland forest monitoring and management solution in Peninsular Malaysia: Optimal parameters for LoRa data

Ain Shams Engineering Journal, May 2025

Nur Luqman Saleh, Aduwati Sali, ... Nordin Ramli

View PDF

Review article *Open access*

A comprehensive survey of the machine learning pipeline for wildfire risk prediction and assessment

Ecological Informatics, December 2025

Naveed Ejaz, Salimur Choudhury

View PDF

Review article

Forecasting vegetation indices from spatio-temporal remotely sensed data using deep learning-based approaches: A systematic literature review

Ecological Informatics, May 2022

Aya Ferchichi, Ali Ben Abbes, ... Imed Riadh Farah

Research article *Open access*

Assessing cost-effectiveness of land management measures to restore forest ecosystem services after fire using hydrological modelling and multi-criteria decision analysis

CATENA, April 2025

Beatriz Faria, João Pedro Nunes, ... Sergio A. Prats

View PDF

Research article *Open access*

Wildfire impacts on the carbon budget of a managed Nordic boreal forest

Agricultural and Forest Meteorology, 15 May 2024

Julia Kelly, Natascha Kljun, ... Cristina Santín

View PDF

Research article *Open access*

VegRecoverAI: A deep learning-based system for automated vegetation recovery assessment and prediction with demonstration case study on gas pipeline construction

Environmental Modelling & Software, September 2025

Alessandro Galdelli, Simone Pesaresi, ... Adriano Mancini

View PDF

Research article

Sentinel 2 based burn severity mapping and assessing post-fire impacts on forests and buildings in the Mizoram, a north-eastern Himalayan region

Remote Sensing Applications: Society and Environment, November 2024

Priyanka Gupta, Arun Kumar Shukla, Dericks Praise Shukla

Research article

Deep scars of fire: A conundrum of shrinking forests, biological invasions, and dryness leading to lower water provision and security

Total Environment Advances, March 2025

Evandro Luís Rodrigues, Eugênia Kelly Luciano Batista, ... Claudia Maria Jacobi

Open access

Development of national post-fire restoration system to assess net GHG impacts and salvage biomass availability

MethodsX, December 2024

C. Smyth, M. Fellows, ... M. Magnan

View PDF

Research article *Open access*

A recent review of fire behavior and fire effects on native vegetation in Central Chile

Global Ecology and Conservation, December 2020

Miguel Castillo S, Álvaro Plaza V, Roberto Garfias S

View PDF

Research article

Etemadi reliability-based multi-layer perceptrons for classification and forecasting

Information Sciences, December 2023

Sepideh Etemadi, Mehdi Khashei, Saba Tamizi

Research article *Open access*

Understanding the dynamics of 2024 extreme heat event in India: Spatial variability, hydrometeorological impacts, and model evaluation

Atmospheric Research, 15 August 2025

Akash Verma, Leena Khadke, Sachin Budakoti

View PDF

Research article

Flammulated owl distribution and habitat associations during the breeding season in the western United States

Forest Ecology and Management, 15 April 2024

Robert A. Miller, Zachary P. Wallace, ... Michael Green

Research article *Open access*

Forecasting the groundwater levels in the Baltic through standardized index analysis

Weather and Climate Extremes, December 2024

Alise Babre, Konrāds Popovs, ... Aija Dēliņa

View PDF

Research article

Increasing Ca2+ deposition in the western US: The role of mineral aerosols

Aeolian Research, September 2013

J. Brahney, A. P. Ballantyne, ... J. C. Neff

Review article

Cohesive fire management within an uncertain environment: A review of risk handling and decision support systems

Forest Ecology and Management, 1 July 2015

Abílio Pereira Pacheco, João Claro, ... José Coelho Rodrigues

Research article

Trend-attribute forecasting of hourly PM2.5 trends in fifteen cities of Central England applying optimized machine learning feature selection

Journal of Environmental Management, April 2024

David A. Wood

Research article

Environmental changes and human impacts over the past 1200years: Evidence from high-resolution pollen records from peat in the Yunnan-Guizhou Plateau, Southwest China

Palaeogeography, Palaeoclimatology, Palaeoecology, 1 December 2024

Shuming Li, Lisi Wei, ... Yan Zhao
