About 390,000 results for “survey review wildfire”

Fields of Study | Date Range | Has PDF | Author | Journals & Conferences | More Filters | Filters | Sort by Relevance

A survey of fractional calculus applications in artificial neural networks

Manisha Joshi · Savita Bhosale · V. Vyawahare · Mathematics, Computer Science · Artificial Intelligence Review · 25 April 2023

TLDR The study highlights the advantage of combining fractional derivatives with ANN, the impact of fractional derivative order on performance indices like mean square error, the time required for training and testing FANN, stability, and synchronization in FANN. Expand

Federated learning for 6G-enabled secure communication systems: a comprehensive survey

Deepika Sirohi · Neeraj Kumar · P. Rana · Sudeep Tanwar · R. Iqbal · Mohammad Hijjii

Computer Science, Engineering · Artificial Intelligence Review · 12 March 2023

TLDR Various vulnerabilities present in the FL environment are analyzed and a literature **survey** of possible threats from the perspective of different application areas is designed, to guard against security and privacy threats in those areas. Expand

65 · PDF · Springer Nature · Save · Cite

Recent advances in decision trees: an updated survey

Vinícius G. Costa · C. E. Pedreira · Computer Science, Mathematics · Artificial Intelligence Review · 10 October 2022

TLDR This paper proposes a **review** of the main recent advances in DT research, focusing on three major goals of a predictive learner: issues regarding the fitting of training data, generalization, and interpretability. Expand

472 · Springer Nature · Save · Cite

Survey on video anomaly detection in dynamic scenes with moving cameras

Runyu Jiao · Yi Wan · Fabio Poiesi · Yiming Wang · Computer Science, Engineering · Artificial Intelligence Review · 14 August 2023

TLDR This **survey** delves into the research papers related to MC-VAD, critically assessing their limitations and highlighting associated challenges, and compile an extensive list of 25 publicly-available datasets spanning four distinct environments: underwater, water surface, ground, and aerial. Expand

21 · [PDF] · Springer Nature · Save · Cite

A brief survey on recent advances in coreference resolution

Ruicheng Liu · Rui Mao · A. Luu · E. Cambria · Computer Science · Artificial Intelligence Review · 26 May 2023

TLDR This work investigates 10 widely used metrics, 18 datasets and 4 main technical trends in this **survey**, and believes that this work is a comprehensive roadmap for understanding the past and the future of coreference resolution. Expand

48 · PDF · Springer Nature · Save · Cite

Comprehensive survey on hierarchical clustering algorithms and the recent developments

Xingcheng Ran · Yue Xi · Yonggang Lu · Xiangwen Wang · Zhenyu Lu · Computer Science · Artificial Intelligence Review · 26 December 2022

TLDR Different types of hierarchical clustering methods are comprehensively **reviewed** from six aspects, and their advantages and drawbacks are analyzed and the application of some methods in real life is discussed. Expand

Institutional Factors Driving Citizen Perceptions of AI in Government: Evidence from a Survey Experiment on Policing

K. Schiff | Danielle Schiff | Ian T. Adams | Josh McCrain | Scott M. Mourtgos

Political Science, Computer Science · PAR. Public Administration Review · 10 October 2023

TLDR It is found that the public clearly prefers local over national law enforcement use of AI, while reactions to different algorithmic targets are more limited and politicized, but there is no responsiveness to agency capacity or lack thereof. Expand

Wildfire Smoke Exposure During Pregnancy: Consensus-Building to Co-Create a Community-Engaged Study

K. Young | K. Brown | Lynda Crocker Daniel | K. Duarte | D. Rohlman

Environmental Science, Medicine · International Journal of Environmental Research... · 1 November 2024

TLDR A multidisciplinary team was built and designed a community-engaged research project to capture community and individual-level exposure to **wildfire** smoke contaminants, alongside perinatal health outcomes in a rural county disproportionately impacted by **wildfire** smoke and infant mortality. Expand

Dealing with Careless Responding in Survey Data: Prevention, Identification, and Recommended Best Practices.

M. K. Ward | A. Meade | Psychology · Annual Review of Psychology · 16 August 2022

Surveys administered online have several benefits, but they are particularly prone to careless responding, which occurs when respondents fail to read item content or give sufficient attention,... Expand

A survey on the mechanical design for piezo-actuated compliant micro-positioning stages.

Bingxiao Ding | Xuan Li | Chenglin Li | Yangmin Li | Shih-Chih Chen

Engineering, Materials Science · Review of Scientific Instruments · 1 October 2023

This paper presents a comprehensive **review** of mechanical design and synthesis methods for piezo-actuated compliant micro-positioning stages, which play an important role in areas where high precision... Expand
